EPITOME

EPITOME.

A year book published annually by the Junior Class
LEHIGHVUNIVERSITY

The Book of the

Class of

1920

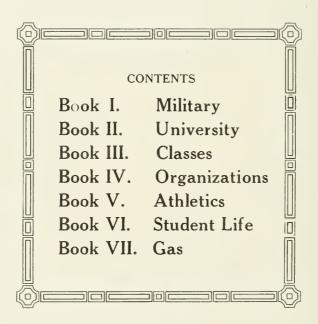

OREWORD.

To the board of trustees, the faculty, the student-body, and all others interested, we offer this brief record of LEHIGH life.

LEUSER

Book I.

O those men of Cehigh University who have given their lives in the service of their country, we respectfully dedicate this Epitome as a memorial to their muselfish patriotism and their willinguess to make the supreme sacrifice.

A Brief History of the S. A. T. C.

Organized on October 1st, 1918, as part of the War Department's extensive military plan, the unit of the Students' Army Training Corps established at Lehigh University enjoyed a brief but eventful life. First among the many adverse conditions encountered by it, was the epidemic of Influenza which swept over the country.

At the time of that catastrophe, for such it was, the S.A. T. C. was in its infancy and the advent of the quarantine, necessitated by the epidemic, in no way aided the situation. The confinement of the student body to the limited quarters available on the campus, the unrest caused by the daily routine to which no one was accustomed, and the conflict of class work and military duties served to make life in the S. A. T. C. one of hardship.

Such seemingly disagreeable but necessary tasks as "K. P.", "Guard Duty" and "Policing the Campus," coming as they did in the midst of all this uneasiness, caused a spirit of disquiet to exist. There was much grumbling and studies were neglected or forgotten entirely. This neglectfulness of scholastic work on the part of the men in service could not, however, be surprising when such depressing conditions prevailed.

On the other hand, very few of the men did not benefit in some way from this brief experience in army life. With the daily drills and the regulation of hours for work and play the health of most of the soldiers or sailors, as the case might be, was improved. This was one of the redeeming features and possibly the principal benefit derived from the S. A. T. C.

There were two companies—"A" and "B", each consisting of a number of platoons. In Co. B. there was a Naval Section, comprising sixty men chosen from among the many applicants for this branch of the service. Each Company had its company commander, its own barracks, and different times for mess, since the Commons could not accommodate all at one time. Headquarters were established in the building directly in the rear of Taylor Gymnasium and here the administration of the unit was carried on.

The officers were quartered in Price Hall and Drown Hall was used as the Hospital while the upper Athletic Field served as the parade grounds. Behind the Physics Building had been creeted a long low wooden structure which was used for the guards' quarters.

All these changes, along with certain modifications, of the regular college curriculum, required by the War Department for the intensifying of the pre-camp training, were brought to an end by the signing of the Armistice on November 11th, 1918, and the subsequent demobilization of the unit a month later.

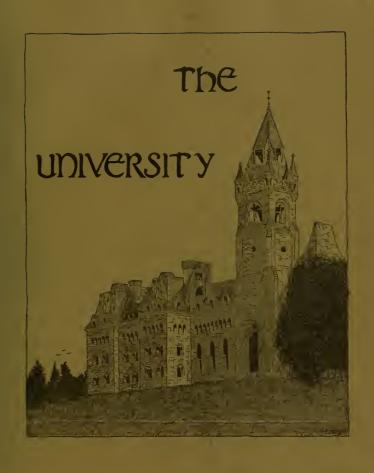

Lehigh's experience with Military Training has not been sufficiently extensive to prove the practicability of this plan for training men for the army. The conditions which existed at Lehigh were but a repetition of those throughout the colleges and universities of the country.

A Brief History of the S. A. T. C. Continued.

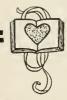

Following are the different calls which were effective for the unit during the military regime at Lehigh:

First Call			5.45	5.45	6.15
March, Reveille			5.55	5.55	6.25
Assembly, followed by Mess			6.00	6,00	6.30
Sick Call			6.45	6.45	7.15
School Call, Section A			7.25	7.25	
First Call for Drill, Section B			7.25		
Assembly .			7.30		
Recall .			8.25		
Officers' Call .			9,00		
Mess			11.30	11.30	12.00
First Sergeant's Call			12.45	12.45	1.00
First Call for Drill .			12.55		
Assembly			1.00		
Recall for Drill .			2.55		
School Call			3,00		
First Call for Retreat			5.30	5.30	5.30
Assembly			5.35	5.35	5.35
Retreat			5.40	5.40	5.40
Mess			6.00	6.00	6.00
School Call .			7.25		
Assembly			7.30		
Tattoo			9.30	9.30	9.30
Call to Quarters			9.45	9.45	9.45
Call to Quarters			9.45	9.45	9.45
Taps			10.00	10.00	10.00

HENRY STURGIS DRINKER, E.M., LL.D.

President of the University

University Park, South Side

E.M., '71, Lehigh University; LL.D., Lafayette College, '05; Franklin and Marshall College, '10; University of Pennsylvania, '11; Princeton University; '18.

Secretary of the Alumni Association, '76, and President, '79; Alumni Trustee, '77-'79, '89-'95; elected member of Board of Trustees, '93, and held office as Trustee until '05; elected President of Lehigh University, June 14, 1905, installed October

On 1988.

Admitted to the Bar of Pennsylvania, '77; Pennsylvania Supreme Court, '80; Courts of New York State, '90. General Solicitor for Lehigh Valley Railroad Company, '85-'05.

Published: 'Treatise on Tunnelling, Explosive Compounds and Rock Drills,' '78; 'Treatise on Explosive Compounds and Rock Drills,' '82; an en'arged edition of Balls' 'Railroad and Telegraph Laws of Pennsylvania,' '84. Author of various papers read before the American Institute of Mining Engineers.

Past Manager and now Vice-President of the American Institute of Mining Engineers, and one of the Founders of the Institute in 1871. Member: Society for the Promotion of Engineering Education; American Association for the Advancement of Science; Historical Society of Pennsylvania; National Institute of Efficiency. Honorary member of Tau Beta Pi. President of the American Institute of the American Institute of the Executive Committee, 13-14, 14-15, and member of the Executive Committee, 15-19. Vice-President and member of the Executive Committee of the Vational Concretation Congress and the Committee of the Committee, 15-19. Vice-President of the United States, 15-'19. Severative of the Milkary Training Camps Association of the United States, 15-'19. Severative of the Milkary Training Camps Association of the Milkary Training Branch. President of the Association of College Presidents of Pennsylvania 1917. Member: Curry Club, New York; University Club, Philadelphia; Engraver's Club, Philadelphia. Director Lebigh Valley Railroad.

NATT MORRILL EMERY, M.A., LITT.D.

Vice-President

137 E. Market St., East Side

A.B., Dartmouth College, '95; M.A., Lehigh University, '99; Litt.D., Ursinus College, '16; Instructor, Tilton Seminary, Tilton, New Hampshire, '95-'96; Assistant in English, '96-'97; Instructor in English, '97-'02; Registrar, '99-'12; Assistant to the President, '07' '10; Vice-President, '10-; Phi Beta Kappa; Phi Gamma Delta.

Charles Lewis Thorburg, C.E., Ph.D.

Professor of Mathematics and Astronomy,
and Secretary of the Faculty

University Park, South Side Graduate of Marshall College, Huntington, W. Va., '76; B.S., '81, B.E., '82, C.E., '83, Ph.D., '84, Vanderbilt University; Fellow in Mathematics, '81-'82; Graduate Fellow 82 '84; Member: American Mathematical Society, Society for the Promotion of Engineering Education, Engineering Association of the South; Fellow of the American Association for the Advancement of Science; Instructor in Engineering Department, '84-'86; Assistant Professor of Engineering and Astronomy, '86-'95, Vanderbilt University; Professor of Mathematics and Astronomy, '95-; Secretary of the Faculty, '99-'00, '01-.

WILLIAM CLEVELAND THAYER, M.A., L.H.D.

Professor of the English Language and Literature

59 Market St., East Side

B.A., '76, Columbia University; M.A., '84, Williams College; L.H.D., '00, Hobart College; Student, University of Gottingen, '79-'80; Graduate Student, Johns Hopkins University; '81; Fellow, '84 and '88, Johns Hopkins University; Professor of Mathematics, Hobart College, '82-'84; Private Instructor in Modern Languages, Baltimore, '88-'91; Professor of Modern Languages, Pennsylvania State College, '92-'95; Professor of English, '95-...

John Lamney Stewart, A.B., Ph.B.

Professor of Economics and History

678 Ostrum St., South Side

A.B., Philadelphia Central High School, '84; Ph.B., University of Pennsylvania, '87; Wharton Fellow in History and Economics, '88; Graduate Student, Department of Ihilosophy, University of Pennsylvania, '83-'91; Member: American Ecomonic Society, Society for the Historical Study of Religion (American Oriental Society), American Academy of Political and Social Science, American Association for the Advancement of Science; Assistant Professor of English, Philadelphia Central Manual Training School, '92-'92; Professor of History and Economics, Philadelphia Northeast Manual Training School, '92-'98; Lecturer on History and Economics, '97-'98; Professor of Economics and History, '98;— Director of the Library, '06—; Phi Beta Kappa; Tan Beta Pi.

Robert W. Blake, M.A.

Professor of the Latin Language and Literature

St. Luke's Place and Ostrum St., South Side

A.B., '87, M.A., '88, Princeton University; Classical Fellow, Princeton University, '87-'88; Student, Universities of Leipzig and Erlangen, '94-'95, Princeton Theological Seminary, '88 '90; Instructor in Greek, Princeton University, '90-'94; Professor of Latin, Washington and Jefferson College, '96-'99; Professor of Latin, Lehigh University, '99-; Member of the American Philological Association; Phi Beta Kappa; Delta Upsilon.

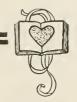

CHARLES JACQUES GOODWIN, A.M., PH.D.

Professor of the Greek Language and Literature

118 Church St., East Side

A.B., '87, A.M., '90, Bowdoin College; Ph.D., Johns Hopkins University, '90; Student, University of Berlin, '96; Member of the American Philological Association; Professor of Greek, Cornell College, Iowa, '90–'92; Professor of Greek, Saint Stephen's College, '98–'99; Professor of Greek, '99—; Phi Beta Kappa; Alpha Delta Phi.

William Esty, S.B., M.A.

Professor of Electrical Engineering

31 Market St., West Side

B.A., '89, M.A., '93, Amherst College; S.B., Massachusetts Institute of Technology, '93; Fellow: American Institute of Electrical Engineers, American Association for the Advancement of Science; Member, Society for the Promotion of Engineering Education; Author: Alternating Current Machinery, Elements of Electrical Engineering, 2 vols. (with W. S. Franklin , Dynamos and Motors, Dynamo Laboratory Manual: Insturctor in Electrical Engineering, [95] [93]; Assistant Professor of Electrical Engineering, [98] [08]; Sociate Professor of Electrical Engineering, [98] [01], University of Illinois; Assistant Professor of Electrical Engineering, '01 '03; Professor of Electrical Engineering, '03 ; Tau Beta Pi: Psi Upsilon.

Joseph William Richards, A.C., M.A., M.S., Ph.D.

Professor of Metallurgy

University Park, South Side

A.C., '86, M.S., '91, Ph.D., '93, Lehigh University, M.A., '87, Philadelphia Central High School; Past President and at present Secretary of the American Electro-chemical Society, Chairman Iron and Steel Section American Institute of Mining Engineers, Member of Franklin Institute, American Institute of Chemical Engineers, American Iron and Steel In-stitute, American Electroplaters' Society (Honorary member), Iron and Steel Institute (London), Societe de Chimie Physique (Paris), Societe de Chimie Appliquee (Paris), Chemists Club of New York City, Engineers Club of Philadelphia, Niagara Club of

Niagara Falls; Author- Aluminium, Metallurgical Calculations (3 vols.); Translator of Giolitti's Cementation of Iron and Steel, Assistant Instructor in Metallurgy, Mineralogy and Blowpiping, '90 '97; Assistant Professor of Metallurgy, '97-'03, Professor of Metallurgy, '03 = : Tau Beta Pi.

HOWARD ECKFELDT, B.S., E.M.

Professor of Mining Engineering

438 Seneca St., South Side

B.S., '05, E.M., '96, Lehigh University; Member of the American Institute of Mining Engineers: Member National Geographic Society; Mining Engineer with Mazapil Copper Co., Concepcion del Oro, Mexico, '96' '00; Railroad Surveying in the State of Zacatecas, Mexico, Summer of 1907; Railroad Construction Work in the State of Coahuila, Mexico, '10 '11; Instructor in Mining Engineering, '00-'02; Assistant Professor of Mining Engineering, '02 '04; Professor of Mining Engineering, '04 - ; Tau Beta Pi; Alpha Tau Omega.

ARTHUR E. MEAKER, C.E.

Emeritus Professor of Mathematics

R. F. D. 2, Binghamton, N. Y.

C.E., '75; Lehigh University; With Pennsylvania Railroad Co., '75' '77; Secretary to the President of the University, '74-'75; Instructor in Mathematics, '77-'97; Assistant Professor of Mathematics, '97' '06; Professor of Mathematics, '12; Emeritus Professor of Mathematics, '12—.

PRESTON ALBERT LAMBERT, M.A.

Professor of Mathematics

215 South Center St., Bethlehem

B.A., '83, M.A., '91, Lehigh University; Graduate Student in Germany, '93-'94; Fellow American Association of America; Instructor in Mathematics, '84-92, '93 '97; Assistant Professor of Mathematics, '97-'06; Professor of Mathematics, '06—; Secretary of the Faculty, '00-'01; Director of the Conference Department, '08—; Phi Beta Kappa; Psi Upsilon.

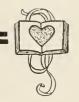

PHILIP MASON PALMER, A.B.

Professor of German

University Park, South Side

A.B., Bowdoin College; A.B., Harvard University; Instructor in Modern Languages, '02-'05; Assistant Professor of Modern Languages, '05-'06; Professor of Modern Languages, '06-'10; Professor of German, '10--; Phi Beta Kappa: Theta Delta Chi.

BENJAMIN LEROY MILLER, A.B., Ph.D.

Professor of Geology

117 Church St., East Side

A.B., University of Kansas, '97; Ph.D., Johns Hopkins University, '03; Fellow: Geological Society of America, American Association for the Advancement of Science; Member, American Institute of Mining Engineers; Author: Papers on Geology and Physiography published in the Bulletins of the Y.S. Geographical Survey and the Geological Surveys of Kansas, Iowa, Maryland, Virginia, North Carolina, Pennsylvania, etc.; Articles published in various technical journals on South American Mining Districts; Popular and Scientific lectures on Latin-American countries in New York, Harrisburg, etc.; Geologist, Maryland Geological Survey, '00' '01; Professor of Biology and Chemistry, Penn College, '97' '00; Associate in Geology, Bryn Mawr College,

'03-'07; Assistant Geologist, U. S. Geological Survey. '07-'13; Professor of Geology, '07--; Joint author of "Mineral Deposits of South America; Tau Beta Pi; Sigma Xi.

FRANK PAPE MCKIBBEN, S.B.

Professor of Civil Engineering

817 Saints Luke's Place, South Side

S.B., Massachusetts Institute of Technology, '94; Librarian, Boston Society of Civil Engineers, '02-'07; Member: American Society of Civil Engineers; American Society for Testing Materials; Society for the Promotion of Engineering Education: Engineers Society of Pennsylvania; Member Board of Directors and Vice-President Peoples Trust Company, South Side; Assistant Engineer: New Bedford Bridge, '97-'98; Boston Elevated Railroad Co., '99-'01; Massachusetts Railroad Commission. '01 '07; Assistant in the Department of Civil Engineering, Lehigh University, '94-96; Instructor in Civil Engineering, '06-'03; Assistant Pro-

fessor of Civil Engineering, '03 '06; Associate Professor of Civil Engineering, '06 '07; at Massachusetts Institute of Technology; Professor of Civil Engineering, '07 '18; Head of Technical Training, Emergency; Fleet Corporation; Tau Beta Pi; Theta Xi.

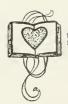

Professor of Railroad Engineering

101 W. Market St., Bethlehem

C.E., '88, M.S., '01; Lehigh University, Member: American Society of Civil Engineers, Society of the Promotion of Engineering Education: Admitted to Bar, Second Judicial District of Maryland, '98 '01; Assistant Professor of Civil Engineering, Tulane University, '01–'04; Assistant Professor of Civil Engineering, '04-'07; Professor of Railroad Engineering, '07—; Tau Beta Pi,

PAUL BERNARD DESCHWEINITZ, M.E.

Professor of Mechanical Engineering

313 Church St., East Side

Graduate, Royal Polytechnic School, Stuttgart, '74; Member: American Society of Mechanical Engineers, American Society for the Promotion of Engineering Education; Instructor in Mechanical Engineering, Western University of Pennsylvania, '74 '80; Mechanical Engineer with Colorado Coal and Iron Co., '80-'92; Bethlehem Steel Co., '92 '01; Pennsylvania Steel Co., '01-'07; Professor of Machine Design, '07—.

ROBERT WILLIAM HALL, A.M., PH.D.

Professor of Biology and Lecturer on Forestry

133 Church St., East Side

Ph.B., Yale, '95; A.B., '97, A.M., '98, Ph.D., '01, Harvard University; Fellow of the American Association for the Advancement of Science; Member: Pennsylvania Forestry Association; Instructor in Biology, Yale University, '99-'02; Instructor in Zoology and Biology, '02-'04; Assistant Professor of Biology, '04-'09; Professor of Biology, '09—, Lehigh University; Lecturer on Forestry: Sigma Xi.

Percy Hughes, A.M., Ph.D.

Professor of Philosophy and Education

1222 Seneca St., South Side

Teacher's Diploma, Teachers College, New York City '97; A.B., Alfred University, '99; A.M., '02, Ph.D., '04 Columbia University; Fellow in Philosophy, Columbia University; Gellow in Philosophy, Columbia University, '02-'03; Member: American Philosophical Association, Fellow of American Association for the Advancement of Science, Association of College Teachers of Education; Teacher and Principal, Secondary Schools, '96-'01; Instructor in Philosophy, Alfred University, '98 '99; Assistant in Philosophy, Columbia University, '03 '05; Instructor in Philosophy, and Psychology, University of Minnesota, '05-

'06; Acting Professor of Philosophy, and Director of Extension Courses for Teachers, Tulane University, '06-'07; Assistant Professor of Philosophy, Psychology and Edu-

cation, '07-'09; Professor of Philosophy and Education, '09

CHARLES SHATTUCK FOX, A.B., LL.B., A.M., Ph.D.

Professor of Romance Languages

119 S. High St., East Side

A.B., University of Rochester, '91; L.L.B., Union University, '93; A.M., '03, Ph.D., '07, Harvard University; Student, University of Gottingen, '97; Graduate Student, University of Chicago, '98 '99; Student, University of Berlin, '99-'00; Graduate Student, Harvard University, '03 '05; Admitted to Bar, State of New York, '93; Instructor in Modern Languages, Morgan Park Academy, '00 '02; Instructor in Modern Languages, '08-'09; Assistant Professor of Modern Languages, '08-'09; Assistant Professor of Romance Languages, '10-' Psi Upsilon.

HOWARD ROWLAND REITER, M.A.

Professor of Physical Education

727 Seneca St., South Side

B.A., '98, M.A., '00, Princeton University; Graduate of Summer School of Physical Education, Harvard University, '10; Football Coach for the Philadelphia Athletics, '02; Athletic Coach, '03-'05, Director of Athletics, '05 '11, Wesleyan; Professor of Physical Education, '11—.

HARRY M. ULLMANN, 'PH.D.

Professor of Chemistry

69 Church St., East Side

A.B., '89, Ph.D., '92, Johns Hopkins University; Member: American Chemical Society, Society of Chemical Industry, Deutsche Chemische Gesselschaft, Societe Chimique de Paris; Fellow of London Chemical Society; Fellow of the American Association for the Advancement of Science; Instructor in Chemistry, '94-'04; Assistant Professor of Quantitative and Industrial Analysis, '04-'10; Associate Professor of Chemistry, '10-'12; Professor of Chemistry, '12-; Tau Beta Pi; Theta Delta Chi.

JOHN HUTCHESON OGBURN, C.E.

Professor of Mathematics and Astronomy

115 N. Fourth Ave., West Side

C.E. ,Vanderbilt University, '92; Fellow in Engineering, Vanderbilt University, '92-'93; Assistant Astronomer, Dudley Observatory, '93-'95; Instructor in Mathematics and Astronomy, '95-'06; Assistant Professor of Mathematics and Astronomy, '06 '10; Associate Professor of Mathematics and Astronomy, '10-'12; Professor of Mathematics and Astronomy, '12-; Beta Theta Pi.

BARRY MACNUTT, E.E., M.S.

Professor of Physics

928 Ostrum St., South Side

E.E., '97, M.S., Lehigh University; Fellow of the American Association for the Advancement of Science; Member: American Electrochemical Society, American Physical Society, National Geographical Society, Society for the Promotion of Engineering Education; American Association of University Professors; Associate Member of the American Institute of Electrical Engineers; Charter Member American Mathematical Association; Joint Author with W. S. Franklin of Text Books on Physics, Calculus, etc.; Instructor in Electrical Engineering, '99-'01; Instructor in Physics, '01 '06; Assistant Professor of Physics, '06-'09; Associate Professor of Physics, '15-; Beta Theta Pi.

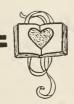

ARTHUR WARREN KLEIN, M.E.

Professor of Mechanical Engineering

224 High South St., East Side

M.E., Lehigh University, '99; Member: American Society of Mechanical Engineers, Society for the Promotion of Engineering Education; American Society for the advancement of Science; National Society of Efficiency; Engineer with United Gas Improvement Co., Newark, '00; Atlanta, '01-'03; Professor of Engineering, Grove City College, '03 '04; Instructor in Mechanical Engineering, '08-'10; Associate Professor of Mechanical Engineering, '08-'10; Associate Professor of Mechanical Engineering, '15--; Professor of Mechanical Engineering, '15--; Tau Beta Pi.

Vahan Simon Babasinian, A.M., Ph.D.

Associate Professor of Organic Chemistry

Absent on Leave

A.B., Anatolia College, '97; A.M., '03, Ph.D., '06, Brown University; Fellow of the American Association for the Advancement of Science; Member of the American Chemical Society; Instructor in Chemistry, '06-'09; Assistant Professor of Chemistry, '09-'11; Associate Professor of Organic Chemistry, '11-'18; Research Chemist, American University, Chemical Warfare Service, '18-'19.

STAILLEY SYLVESTER SEYFERT, E.E., M.S.

Associate Professor of Electrical Engineering

456 Chestnut St., South Side

E.E., '04, M.S., '09, Lehigh University; Member: American Electrochemical Society; Society for the Advancement of Science; Society for the Promotion of Engineering Education, American Institute of Electrical Engineers; Instructor in Electrical Engineering, '04' '08; Assistant Professor of Electrical Engineering, '08-'14; Associate Professor of Electrical Engineering, '14.

RALPH JUSTIN FOGG, B.S.

Associate Professor of Civil Engineering

723 Cherokee St., Bethlehem

B.S., Tufts College, '06; Member of the Society for the Promotion of Engineering Education; Instructor in Civil Engineering, '08-'11; Assistant Professor of Civil Engineering, '11-'14; Associate Professor of Civil Engineering, '14--; Tau Beta Pi, Delta Tau Delta.

Myron Jacob Luch, M.A., Ph.D.

Assistant Professor of English

118 South Second Ave., West Side

B.A., '02, M.A., '03 Lehigh University; Ph.D., Tulane University, '07: Teaching Fellow and Assistant in Greek, Tulane University, '05 '07; Student at Leipzig and Berlin Universities, '10-'12; Assistant in English, '03 '04; Instructor in English, '04-'05; Assistant Professor of English, '07-; Phi Beta Kappa.

JOHN EUGENE STOCKER, B.S., M.S.

Assistant Professor of Mathematics and Astronomy

220 North Linden St., East Side

B.S., '95, M.S., '08, Lehigh University; Graduate Student in Mathematics, University of Chicago, '07 '08; Instructor in Mathematics, Western Military Institute, Alton, Ill., '95 '97; Instructor in Mathematics, '03-'08; Assistant Professor of Mathematics and Astronomy, '08; Phi Beta Kappa.

JAMES HUNTER WILY, E.E.

Assistant Professor of Physics

1007 Delaware Ave., South Side

F.E., Lehigh University, '05; Associate Member; American Institute of Electrical Engineers, American Physical Society; Member: American Society for the Advancement of Science, Illuminating Engineers Society; Instructor in Physics, '06-'09; Assistant Professor of Physics, '09-; Sigma Phi Epsilon.

CHARLES K. MESCHTER, B.S., B.A., M.A., Ph.D.

Assistant Professor of English

27 North New St., East Side

B.S., University of Pennsylvania, '96; B.A., Harvard University, '00; M.A., University of Pennsylvania, '07; Ph.D., '13; Author: Leisure Hour Poems, Delaware Water Gap Lyrics, Mount Minsi Fairies; Editor: Love's Victory; Professor of English and German, Perkiomen Seminary, '96-'05; Professor of English, Moravian College for Women '10—; Instructor in English, '05 '09; Assistant Professor of English, '99—.

GAR A. ROUSH, A.B., M.S.

Assistant Professor of Metallurgy

311 Cherokee St., South Side

A.B., Indiana University, '05; M.S., University of Wisconsin, '10; Editor of the Mineral Industry; Member: American Electrochemical Society, American Institute of Mining Engineers, American Chemical Society, Chemists' Club, New York City; Engineers' Club, Philadelphia; Assistant Professor of Metallurgy, '12—; Absent on Leave, June, 1918, February, 1919; Captain, Ordnance Dept., U. S. A.; Head of Educational Branch, Inspection Division, Ordnance Dept.

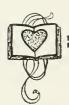

ALPHA ALBERT DIEFENDERFER, A.C., M.S.

Associate Professor of Quantitative Analysis and Assaying

636 Broad West St., West Side

A.C., '02, M.S., '08, Lehigh University; Member of the American Chemical Society; Assistant in Chemistry, '02-'03; Instructor in Chemistry, '03-'12; Assistant Professor of Chemistry, '12-'17; Associate Professor of Quantitative Analysis and Assaying, '17-; Tau Beta Pi.

GEORGE CARLTON BECK, A.C.

Assistant Professor of Quantitative Analysis
P. O. Box 91, 411 Cherokee St., South Side

A.C., Lehigh University, '03; Assistant in Chemistry, '04-'05; Instructor in Chemistry, '05 '13; Assistant Professor of Quantitative Analysis, '13 -; Phi Delta Theta.

Sylvanus A. Becker, C.E., M.S.

Assistant Professor of Civil Engineering
103 North St., East Side

C.E., '03, M.S., '09, Lehigh University; Associate Member of the American Society of Civil Engineers; Instructor in Civil Engineering, '06-'13; Assistant Professor of Civil Engineering, '13—; Tau Beta Pi; Phi Sigma Kappa,

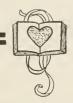

Joseph Benson Reynolds, B.A., M.A.

Assistant Professor of Mathematics and Astronomy
632 W. Broad St., East Side

B.A., '07, M.A., '10, Lehigh University; Charter Member of Mathematical Association of America; Member of American Association for the Advancement of Science; Instructor in Mathematics and Astronomy, '07-'13; Assistant Professor of Mathematics and Astronomy, '13—; Phi Beta Kappa.

ROLLIN LANDIS CHARLES, B.A., M.A.

Assistant Professor of Physics

24 S. Seventh Ave., West Side

B.A., '07, M.A., '10; Lehigh University; Fellow of the American Association for the Advancement of Science; Associate Member of the American Physical Society; Member: Society for the Promotion of Engineering Education; Charter Member of the Mathematical Association of America; Instructor in Physics, '07-'13; Assistant Professor of Physics, '13—; Phi Beta Kappa.

THOMAS EDWARDS BUTTERFIELD, M.E., C.E.

Associate Professor of Mechanical Engineering

M.E., Stevens Institute of Technology, '95; C.E., Rensselaer Polytechnic Institute, '97; Chemist with New Jersey Portland Cement Co., Perth Amboy, N.J.; Engineer with Means & Fulton Iron Works, Birmingham, Ala.; Draftsman, Assistant Engineer and later Chief Engineer with Otto Gas Engine Works, Philadelphia, Pa.; Consulting Engineer and Gas Power Specialist, New York City; Instructor in Mechanical Engineering, '12-'13; Assistant Professor of Mechanical Engineering, '13 '17; Member of the American Society of Mechanical Engineers; Sigma Xi; in Coast Artillery Corps, U. S. A., '17-'19; Major, Coast Artillery, 18'-'19.

ROBERT PATTISON MORE, A.B., A.M.

Assistant Professor of German

"Clearview," East Side

A.B., Lehigh, '10; A.M., Harvard, '13; Graduate Student, Harvard University, '13; Assistant in German, Lehigh, '10-'11; Instructor in German, Pennsylvania State College, '11-'12; Instructor in German, University of Minnesota, '15-'16; Assistant Professor of German, Lehigh, '16—; Feb. 1918 to Jan. 1919 on leave of absence and in National Army, U. S. A.; Phi Beta Kappa.

HOWARD MASSEY FRY, E.E., M.S.

Assistant Professor of Physics

124 N. Ave. H., West Side

E.E., Lehigh University, '10; M.S., Lehigh University, '15; Instructor of Physics, '10-'17; Assistant Phoressor of Physics, '17--; Tau Beta Pi; Alpha Tau Omega.

RAYMOND WALTERS, M.A.

Registrar, Assistant Professor of English

431 E. North St., East Side

B.A., '07, M.A., '13, Lehigh University; Representative of the American Association of Collegiate Registrars in Organizing Grading System, Field Artillery Central Officers' Training School, Camp Taylor, Ky.; Captain, Adjutant General's Department, U. S. Army, '18–'19; Registrar," F. A. C. O. T. S.; Publicity Director of the Bach Festivals; Member of Staff Philadelphia Public Ledger, and Bethlehem Globe, '07–'11; Editor of Lehigh Alumni Bulletin, '13—; Member: American Association of Teachers of Journalism; Instructor in English, '11–'17; Registrar, '12—; Assistant Professor of English, '17–'17; Registrar,

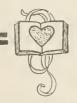

RALPH LINCOLN BARTLETT, S.B.

Assistant Professor of Mining Engineering

Macada, R. D.

S.B., Massachusetts Institute of Technology, '10; Graduate Student, Lehigh University, '12; Geologist with F. G. Clapp, Oil and Gas Specialist, Pittsburgh, Pa., '10-'11; Mining and Milling, U. S. Reclamation Service, Arizona, '11-'12; Instructor in Mining Department, Massachusetts Institute of Technology, '12-'13; Mining Work in Alaska with Bering Shore Syndicate, '13; Instructor in Mining Engineering, '14-'17; Assistant Professor of Mining Engineering, '17-...

MERION OTIS FULLER, C.E.

Assistant Professor of Civil Engineering

130 Ave. H., West Side

C.E., Syracuse University, '10; Instructor in Civil Engineering, '12 '17; Assistant Professor of Civil Engineering, '17 .

Јона Милоа Тоону, В.А.

Assistant Professor of Romance Languages

815 N. Wood St., East Side

B.A., Lehigh University, '10; Assistant in German, '08-'00; Instructor in French, '13 '15; Instructor in Romance Languages, '15-'17; Assistant Professor of Romance Languages, '17--; Phi Beta Kappa; Alpha Tau Omega.

EZRA BOWEN, 4TH, B.S., M.S.

Assistant Professor of Economics

University Park

B.S., Lehigh University, '13; M.S., '16; Member of the American Economic Association; Member Bethlehem Chamber of Commerce; Statistician, Henry & West, Bankers, Philadelphia, '13—'14; Production Engineer, American International Shipbuilding Corp.; Instructor in Economics, '14—'17; Assistant Professor of Economics, '17—; 18 Club; Psi Upsilon; Arcadia.

JAMES SCOTT LONG, CH.E., M.S.

Assistant Professor of Inorganic Chemistry

513 W. Union St., East Side

Ch.E., Lehigh University, '14; M.S., Lehigh University, '14; Member of the American Chemical Society; Assistant in Chemistry, '14-'15; Instructor in Chemistry, '15-'17; Assistant Professor of Inorganic Chemistry, '17—; Tau Beta Pi; Theta Xi.

I. Lynford Beaver

Assistant Professor of Electrical Engineering

209 Franklin Ave., Bethlehem, Pa.

West Chester State Normal School, '00; E.E., Lehigh University, '04; Instructor in Electrical Engineering, U. of Pa., '05-'07; Instructor in Electrical Engineering, Drexel Institute, '07-'16; Senior Instructor in Electrical Engineering, Drexel Institute, '16-'18; Assistant Professor of Electrical Engineering, Lehigh University, '18--; Author: Principles of Alternating Currents; Member: Philadelphia Lehigh Club, Society Promotion of Engineering Education, Membership Committee American Institute of Electrical Engineers; Tau Beta Pi.

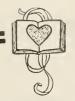

LEGRAND REX DROWN, B.S., M.A.

Aeststant I rofessor of Philolophy and Education

420 Cherokee St., South Side

B.S., '15; Wooslir College, M.A., '16, Columbia University; Graduate Student Columbia University, '17; Department of Philosophy and Education, '18–'19; Lehigh University Extension and Summer School.s, '18

HOMER G. TURNER, B.S., M.S.

Assistant Professor of Geology

905 N. Wood St., Bethleham, Pa.

B.S., '12, Syracuse University; M.S., '14, Syracuse University; Graduate Student at Chicago University, '13-'14; Assistant in Geology, Syracuse University, '10-'12; Instructor in Geology, '12-'13; Assistant Professor in Geology, '13 '18, Syracuse University; Assistant Professor of Geology, Lehigh University; Alpha Chi Sigma; Sigma Xi; Sigma Beta.

ROBERT LYLE SPENCER, B.M.E.

Assistant Professor of Mechanical Engineering

1633 W. Broad St., Bethlehem

B.M.E., '12, Iowa State College; Instructor in Mechanical Engineering, '12-'16; Assistant Professor in Mechanical Engineering, '16--.

Frederick R. Ashbaugh

Bursar

308 E. Broad St., East Side

Secretary to the President, 1896–1908; Bursar, 1908—.

Instructors

1918-1919

PARKE BENJAMIN FRAIM, E.M.

328 W. Fourth St., So.Side

Instructor in Physics

E. M. Lehigh University (69) Associate Membdr of the American Physical Society; instructor in Physics, (12) 18 Licent Ord, Dept. U. S. A. (18/19) Instructor in Physics, (19)

MORRIS S. KNEBELMAN, B.S., M.S.

415 Cherokee St.

Instructor in Mathematics

B. S., University of Penneylvama, 'D', M. S., Lehigh University, '14, Graduate Student, Lehigh University, '15; In structor in Mathematics' '13 - ; Member of American Mathematical Society.

WHITMELL PUGII TUNSTALL, C.E.

Absent on Leave

Instructor in Physics

C. E., '93, Lehigh University, Maintenance of Way, B. & O. R. R., '94; Assistant to Chief Engineer, Capital Traction Cc., Washington, D. C., '95-'08; Board of Supervising Engineers, Chicago Traction, '08-'11; Contracting and Consulting Engineer, '11-'16; Instructor in Physics, '16-'; Beta Thata Pi, Tau Beta Pi.

HARRY G. PAYROW, B.S. in C.E.

733 N. Main St., East Side

Instructor in Civil Engineering

B.S. in C.E., '07, Tutts College Associate member American Society of Civil Engineers, Instructor in Civil Engineering,

EDWARD F. BERRY, B.Sc. in C.E.

17 N. Center St., West Side

Instructor in Civil Engineering

B.S. in C.E., '13, University of New Brunswick; Instructor in Civil Engineering, '16 - .

OVID W. ESHBACH

416 Chestnut Street, South Side.

Instructor in Electrical Engineering

E. E. Lehigh University, '15; Instructor in Electrical Engineering Lehigh University, '16-'17; Second Lieutenant Signal Corps, U. S. R. '18-'19; Instructor in Electrical Engineering Lehigh University '19.

BARRON P. REX. PH.B.

422 Birkel Ave., South Bethlehem, Pa.

Instructor in Bacteriology and Sanitary Biology

Ph.B., '15, Lafayette College; Instructor in Biology, '16-'19,

Allison Butts, A.B., S.B.

1742 Jefferson Ave., West Side

Instructor in Metallurgy

A.B., Princeton University, '11; S.B., Massachusetts Institute of Technology, '13; Assistant in Metallurgy, '16-'17;

STANLAY BEAMENSDERFER, A.M., M.E.

255 S. 7th Ave., West Side

Instructor in Mechanical Engineering

A.B., '07, A.M., '08, Franklin & Marshall College; M.E., Cornell University, '11; Instructor in Mechanical Engineering, '17--,

WALTER FLAMM QUAST, M.E.

520 Broadhead Ave., South Side

Instructor in Mechanical Engineering

M.E., Lehigh University, '14; Instructor in Mechanical Engineering, '17-..

JOHN THEODORE KRUPELMANN, B.A., M.A.

Absent on Leave

Instructor in German

B.A., '15, M.A., '16; Tulane University, Harvard University, '17; Instructor in German, '17-...

FAY COUNT BARTLETT

219 E. Packer Ave., South Side

Instructor in Physical Education

Harvard Summer School Physical Training; Columbia Summer School Physical Training; Instructor in Physical Education, '17—.

PEYSAH LEYZERAH, PH.D.

521 Cherokee St., South Side

Instructor in Mathematics

Ph.D., Clark University, '16; Instructor in Mathematics, '17-

AUGUSTUS HENRY FRETZ, Ph.B., C.E.

400 Reeder St., Easton, Pa.

Instructor in Geology

Ph.B., Lafayette College, '03; C.E., Lafayette College, '06; Branch Office, D. L. & W. R. R., '06-'11; Instructor in Geology, Lafayette College, '11-'18; Instructor in Geology, Lehigh University, '18; Phi Gamma Delta.

EDWARD H. DARBY

314 Highland Ave., N. W.

Instructor in Physical Chemistry

A.B., Clark College, '14; A.M., Clark University, '15; Ph.D., Clark University, '17; Research Work Chemist, Roessler & Hasslacher Chemical Co., Niagara Falls, N. V., '17; Research Chemist, Atlantic Refining Co., Phila., Pa., '18; Instructor in Physical Chemistry, Lehigh University, '18—.

W. Alfred Everhart

425 Union St., Bethlehem, Pa.

Instructor in Chemistry

Miami University, Oxford, Ohio, A.B., M.Ch., '14; Phi Beta Kappa, '13; Instructor in Chemistry, Lehigh University, '18-

The 1920 EPITOME

WAYNE H. CARTER

Sigma Nu House, Bethlehem, Pa.

Instructor in Quantitative Analysis

Chemist, Lehigh University, '17; Instructor in Quantitative Analysis; Chemist, Nichols Copper Co., New York Cite, '17-'18; Chemist, Air Nitrates Corporation, Muscle Shoals, Ala., '18-'19; Instructor in Quantitative Analysis, '19--. Signua Nn.

Harold V. Anderson

Franklin Ave., Rosemont, W. Bethlehem, Pa

Instructor in Chemistry

University of Michigan, B. Ch.E., '12; Instructor in Chemistry, '18 '19; Chemist, Dixie Portland Cement Co., Clatta nooga, Tenn., '14 '18; Chemist, Air Nitrates Corporation, Muscle Shoals, Ala., '18.

I C. Pomeroy, B. A., M. A.

736 Wyandotte Street, Bethlehem, Pa

Instructor in Physics.

B. A. Queens University; M. A. Princeton University; Member of American Physical Society; Fellow of American Assosociation for Advancement of Science; Fellow of lowa Academy of Science.

LEROY PIERCE RAMENSTEIN, B.A., M.A.

34 N. New St., Bethlehem, Pa.

Instructor in Physics

B.A., Wabash College, '16; M.A., University of Wisconsin, '18; Phi Beta Kappa.

MALCOLM K. BUCKLEY

468 Chestnut St., Bethlehem, Pa.

Instructor in Chemistry

R. EARL MARTIN

1222 New Seneca St., South-Side

Instructor in Physics

A.B., Indiana University, '17; Instructor in Physics, Lehigh University, '18-

HAROLD G., BOYD, Ch.E.

Sigma Chi House, Bethlehem, Pa.

Instructor in Chemistry

Ch.E., Lehigh University, '18; Instructor in Chemistry, '19; U. S. A., '18; Tau Beta Pi; Sigma Chi.

WALTER A. HILDRETH, B.A., M.A.

148 S. Main St., Bethlehem, Pa.

Instructor in German

B.A., '03, Amherst; M.A., '18, Harvard University; University of Berlin and Munich, '06-'08; Harvard University Grad-nate School, '08 '10; Instructor in German, William College, '10-'17; Phi Delta Theta.

PHILIP D. STEVENS

Absent on Leave

Instructor in French

A.B., '16, Harvard University; Instructor in French, '16-; Absent on Leave.

Lecturers

EDWARD HIGGINSON WILLIAMS, JR., B.A., E.M., A.C., Sc.D., LL.D., Woodstock, Vt.

Lecturer on Mining and Geology

B.A., Vale University, '72; E.M., '76; A.C., '75; LL.D., '13. Lehigh University; Sc.D., University of Vermont, '12; Fellow of the American Association for the Advancement of Science; Fellow of the Geographical Society of America; Memberr American Philosophical Society, American Institute of Mining Engineers; Honorary Member of Pbi Beta Kappa; One of the Founders of Tau Beta Pl; Professor of Mining Engineering and Geology, '81-'02; Lecturer on Mining and Geology, '02--; Psi Upsilon.

WILLIAM LAWRENCE ESTES, A.M., M.D.

805 Delaware Ave., South Side

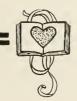

Lecturer on Physiology and Hygiene

A.M., Bethel College; M.D., University of Virginia, '78; M.D., New York University, '78; Physician and Surgeon; Director St. Luke's Hospital, South Bethlehem; Fellow of American College of Surgeons, Member American Surgical Association; Member of International Surgical Society; Lecturer on Physiology and Hygiene, '83—.

Consulting Physician

WILLIAM LAWRENCE ESTES, JR., B.A., M.D. 819 St. Luke's Place, South Side

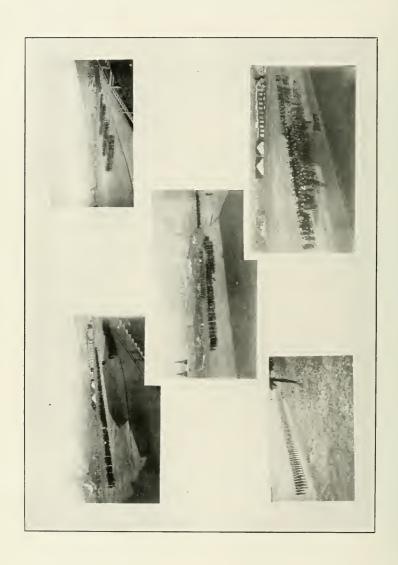

B.A., Lehigh University, '05; M.D., Johns Hopkins University, '09; Chief Interne at St. Luke's Hospital, South Bethlehem; Kappa Alpha.

ELASSE

Book 111.

O William Sheridan

who has always worked quietly and faithfully for the success of Cehigh, this section of the Year Book is dedicated, as a token of the esteem and respect in which he is held by the members of the Class of 1919.

THE SENIOR CLASS

History

FEW short weeks and the present Senior Class will come face to face with the grim world of Reality. Our four years, here, have been spent in preparation for this meeting. In leaving college we are entering a world changed somewhat from that which, in a sense, we left four years ago. This change is a result of the Great War from which our country has so recently emerged victorious. It is in this changed world that each of us is soon to take an active part.

This miniature world of college life has also witnessed some changes of varying importance, while we have been a part of it. We, of 1919, were the last class to have the pleasure of participating in an inter-class fight. Since our Freshman year all forms of hazing have passed into Lehigh's history. The name Arcadia is practically all that the student governing body of to:lay and that of our early years have in common. In addition to these changes affecting under-graduate life, there are those resulting from the War.

We feel the pleasant satisfaction of having taken our part in the successful period of Lehigh's athletics which it has been our privilege to enjoy. Three out of four victories over Lafayette in football and the record score of 78 to 0, of our Junior year will always be fresh and cheering to our memories, whatever the future may bring forth.

But a comparative few of those whom Thorny first pronounced members of the class of 1919, one fall day in 1915, will receive their diplomas in June. In addition to losing some of our members because of the usual pit-falls, which claim many victims from every class, our number was greatly diminished by the War. We shall always be proud of those who left us in answer to their country's call; and for the memory of those who made the supreme sactifice, we shall ever have the deepest respect and reverence.

The world which we are about to enter is full of opportunities for each of us to win recognition. The reconstruction, which will follow the end of the great world conflict, alone offers a vast field. But in the midst of our activities let us never lose sight of the four years which we have spent together. May the friendships, which we have formed, continue to flourish, in spite of time, distance, and new companions, for they compose the fond memories upon which relies our love for our Alma Mater.

Rip-Rho! Rip-Rine! One-nine-one-nine! '19!

'19!

'19!

Walter Park Amick Philadelphia, Pa.

M.E.

Amy, no he's not a girl, is a resident of the city of Brotherly Love and says that in the Bureau of Vital Statisties they have record of his having been born some time in 1896. He did not start till the second term of our Freshman year, but he was armed with a B. A. degree from Central High School which amply made up for his loss in time. The girls in town started to rejoice when they heard he had arrived. He has not missed a roll call at the Colly in four years and it will be a sad day when his name is stricken from the rolls.

As plumbers are scarce in Philadelphia and the water supply inadequate Amy soon decided that the way to get the coin was to become a Mechanical Engineer. He found there was some pretty good dope in the course, if you can stay awake in class, so he applied himself with a vigor which has brought astonishing results. Here's luck to you, Amy, old boy.

"She's a whiz"

Lewis Albert Baumann Washington, D. C.

"Louie"

Ch.E. Track Squad (1, 2,), Mandolin Club (1, 2), Mustard and Cheese (2, 4), Chemical Society, Kappa Beta Phi, Sword and Crescent, Tau Beta Pi, Kappa Sigma.

Yes, Louie hails from our National Capitol, having lived seventeen of his youthful years there before deciding to benefit old South Bethlehem and the "Collie" with his presence. Don't think for a minute that scholastic honors mean that Louie is our champion student. No sir, one does not get Kappa Beta Phi for studying and Lewis became a member of that august body previous to Tau Beta Pi. He is also quite an artist and can make a violin do tricks usually done with a sliderale. The girls all fall for his smile and music. It is rumored that he expects to settle down early to a benedict's life. We wish you luck, Louie; may you be as successful in that endeavor as you are as a chemist.

"I'll say she's way ahead."

Kenneth Miller Bevier Brooklyn, N. Y.

Bus.Ad. Class Football (2), Burr Board (1, 2, 3, 4), Business Manager (4), Mustard and Cheese (1), Stage Manager (3), Varsity Wrestling (3, 4), Captain, (3, 4), Intercollegiate Champion 125-lb. Class (3, 4), Class President (4), Athletic Representative-at Large (4), President Athletic Committee (4), President Arcadia (4), Class Book Committee, Cotillion, Sword and Crescent, Chi Psi.

Ken hails from that suburb which is well known for its baby carriages, churches, and political emblems—Brooklyn. While still a youth he conceived the idea of being a Wall Street star and came to Lehigh to be initiated. Incidentally he took up the wrestling game with considerable success and besides bringing home victories also managed to get souvenirs from each place.

Having successfully guided the class to port and also taken the trenches of Coppee Hall, we leave him with his final task the Conquest of Bolivia.

"We must cut down expenses."

Charles Joseph Brockman Nazareth, Pa.

"Brock."

B.A. University Orchestra (1), Glee Club (2, 3, 4), Assistant Manager (3), Manager (4), Arts and Science Club, Deutscher Verein.

From a little town to the north of South Mountain, "Brock" catches the car for his daily trip to Lehigh, He was born in the Holy Land and therefore he considers things wholly for himself. He has taken the Arts course in order to prepare for future life and he surely has an art in the violin. He can take a bow and make a fiddle talk.

"Brock" visited the southern climes during the first part of his Senior year as an officer in Uncle Sam's outfit. He did not like the climate so he returned to the little town of Nazareth and his work at Lehigh. It does not take him very long to do the work which is required so he has a great deal of time to loaf in the library. Some day we hope to hear "Brock" playing as soloist with one of the big symphony orchestras.

"Oh, this asinine world."

Malcolm Lee Buckley
Allentown, Pa.

"Buck"

B.S. in Chem.

Malcolm Lee is known among us as "Buck." He came here after departing from the Allentown High School. However, he is not an Allentonian pure and simple. He recognized the advantages of the big city and migrated there in early youth. While wandering thru the mazes of Hamilton Street he developed a craving for Chemistry. "Buck" can certainly hold down his end in the Chemical course. His mastery of Chemistry is not only told in words, facts show it, for the Chemistry Department has elected him as Instructor in Freshman Chemistry. This position of Instructor, "Buck" is certainly holding down with credit and it seems to be a measure of his success in after life.

"Il'ill you write the equation."

Hempstead Stratton Bull Fairbury, Ill.

"Hemp" "Shorty"

E.E. Section Chief A, Wrestling Squad (3), Treasurer E. E. Society, Arcadia, Tau Beta Pi.

Shorty hit the long, long trail four years ago and since then has hit the trail daily to the Physics building. He must have made some impression down there, or it is a case of serving for four years because he has been rewarded in the shape of a gold key. He is wrapped up in his chosen subject of electricity. If you try to get some information from him it will probably be in terms of volts or amperes. He insists that all natural phenomena should be interpreted electrically and that the time will come when everything will be controlled by turning a switch. If anybody can do it we will back "Shorty" for even tho he is short in stature he is long in wisdom and that is what counts.

"Drop that ammeter!"

Carl John Cardin North Brookfield, Mass.

"Charlie."

ME

"Charlie" comes from a place in Massachusetts and was born somewhere in New Hampshire, but for the life of us we can't tell you where the confounded places are. He is one of the older men in the class, having struggled thru this dreary world for over twenty-six years. He has been the pest of many a man with his "Hello, is so and so in." Nevertheless we admire his spirit and the way in which he has got along while here.

If he had money, he says, he would buy an automobile, a home and think of the serious question. What this serious question is defies explanation as the worst "Charlie" has ever done is to stay out all night. He has put in a but of work while at college and if consistent effort will win success he is sure of coming out on top.

"So long."

Peter A. Carr Freeland, Pa.

"Midget."

C.E.

Mr. Midget Carr hails from that well ktown mining town of Freeland. He first thrust hinself into the limelight in Eckley on the twenty-fith day of July in the year of our Lord, 1896. Being brought up in a mining center, mining as a life's occupation did not appeal to him and he decided that he would rather run a sewage disposal plant. The Mining and Mechanical Institute of Freeland did noble work in preparing Midget to enter Lehigh. He did not stay with us long enough to become proficient in the operation of a plant. The climate of the South appealed to him and he spent the summer in Camp Greene, N. C. In fact, he was so enthusiastic over this region that he was unable to get back in time to finish the work of the Senior year.

"Got any tobacco."?

Roy Riddell Coffin Philadelphia, Pa. "Roy"

Bus. Ad. Class Vice-President, Acting President (3), Class Baseball and Football (1, 2), Varsity Baseball (3, 4), Captain (4), Football Squad (3), Varsity Soccer (1, 2, 3, 4), Varsity Tennis (2, 3, 4), Manager (3), Captain (4), University Champion (3), Brown and White (2, 3, 4) Assistant Business Manager (3), Business Manager (4), Epitome Board, Hustling Committee (3), Y. M. C. A. Cabinet (4), Vice-President (4), Arcadia, Cotillion, Cyanide, Sword and Crescent, Delta Tau Delta.

The King hails from that sleepy old place of Germantown, and after entering Lehigh decided that the one path to fame and fortune led thru Coppee Hall. Not to be handicapped by his four years' intense study in Business Administration which was interrupted in his first term Senior year to enable him to join Uncle Sam's Naval fliers, he immediately began to indulge in the past two years he has secured quite a reputation as an athlete, both Mexican and otherwise. His popularity can best be judged by the list above and in the future we all expect to see him at the head of some 'Economic Revolution'.

"What will you trade that for?"

William Coombes New York, N. Y. "Bill."

Bus.Ad. Assistant Business Manager Mustard and Cheese (3), Burr Board (3).

"Bill" was born in the west (Ohio), but moved to Broadway and 42nd Street in order to be near the theatres. He went thru the De Witt Clinton High School and then packed his bag for Lehigh. "Bill" was a lazy cuss and always hated to do any of the collegiate work. He much preferred to be talking to some nice little girl. In order to facilitate this matter he had a phone installed in his room. The phone was so placed that he could recline on a couch while engaged in the gentle art of kidding them along. But one girl in the old home town captured his heart and "Bill" changed to Columbia University in the middle of his Junior year.

"Bill's" scholastic work was of such a caliber while here, that he was able to wring a degree from the Columbian faculty in February of this year. He beat us to the old sheepskin by a half year in making this change. But if this brought him any closer to the choice of his heart we are glad of it and he will always be remembered as one of the gang that started their college career with a class scrap.

"It's a tough life."

Anson Wolfinger DeVout Harrisburg, Pa.

"Dinny

M.E. Assistant Manager, Wrestling (3), Manager (4), Vice-President Intercollegiate Wrestling Association, Athletic Committee (4), Arcadia Secretary, Class Book Committee, Sword and Crescent, Theta Xi.

In the fall of 1915 a tall, blond individual from Harrisburg, refused to buy a chapel seat, and registered as an M. E. (Mealey Expert—not then). You know him "the next bout will be"—or "what's your number?, well, why don't you stand on it?" But at other times when not engaged in these activities, Divvy adorns Bill Hall untangling the intricacies of the M. E. course. Some say he ruined it.

As for the future—our prophetic vision is limited. We can't see him in the Presdent's chair, electric chair or the pulpit. However, if he keeps going at the same rate as now it is impossible to tell to what heights he will reach.

He has passed the six feet mark and it is nearly certain that he can go no higher but he has a very long reach and may pluck something nice some day.

"Let's go."

William Frederic Diefenderfer

Allentown, Pa.

"Dief" "Red"

M.E.

"Red" hails from that famous city of the United States, Allentown. He wished however, to get away from the influence of wild women and beer, so for the past six years a great part of his time has been spent in this town. Bethlehem Prep first claimed the honor of having his presence and then Lehigh took up the burden. He at once demonstrated his ability in his Freshman year and by the time of his Senior year we found him aiding many a downcast Junior by giving him help in Mechanics of Machinery. "Dief's" college career was interrupted for a short time this year on account of the necessity of wearing a bar for Uncle Sam. This little vacation made no difference and he will receive his sheepskin on schedule time.

It has been said that "Red" is a ladies man and from observations taken at the leading places of amusement in the Dutch city there is no doubt of it. If he can get away with it for four years and stay in college there is little doubt of his success from now on.

"Be good"

Gilbert Everett Doan Lansdale, Pa. "Dreary"

Ch.E. Capt. Freshman Track Team, Sophomore Track Team, Indoor Relay Team (2, 3), Cross Country Team (3), Varsity Track (2, 3, 4), Captain (4), Mustard and Cheese (3), Property Man (4), Mercur Scholarship, Sword and Crescent, Delta Upsilon.

Those gentle eyes which gaze at you so calmly from above belong to one of the sleepiest men on earth. This fact was caused, without a doubt, from living in that half-way place, Lansdale. Whenever you pass thru it on the way to the metropolis, Philadelphia, you can notice that all of the inhabitants have the same air. Let us sleep. There is only one time when "Dreary" throws off this attitude. Give him a pair of spiked shoes and show him a track and he will become animated. Then he will show you what he really can do. He is well liked and it cannot be said that he is not a student. We wish him as much success on the track of life as he has had on the cinder track.

"There's time for forty winks."

David Dorkin Bridgeport, Conn. "Dork" "Dave"

M.E. Freshman French Prize, Mandolin Club (1, 2, 3), Mustard and Cheese Musical Director (2, 3, 4), M.E. Society, Arcadia (4), Pi Lambda Phi.

Among the masqueraders, who sallied forth on the night of Hallowe'en, 1897, could be found one David Dorkin. He immediately displayed mechanical genius by dismantling a coat hanger. His career at the Bridgeport High School attracted so much attention that the Remington Arms Co. immediately put a plant in the Connecticut metropolis. "Dave" could not be attracted by this display and came to Lehigh in order to perfect a candy machine.

For three years the Mustard and Cheese Club has retained him as the director of its musical programmes. "Dave" can play and direct at the same time. This double ability will come in handy in later years, and some day we expect to see "Dave" running a candy machine with one hand and selling the candy with the other.

"One, two, alright!"

Frank John George Duck Scranton, Pa.

"Goofus" "Duckie"

Ch.E. Chemical Society.

Sometime back in '98 a little bird chirped, "When it's nesting time in Flatbush," and Frank howled an accompaniment. At a tender age he took Greeley's advice, "Go West, young man," and hence his ability to talk about that part of the country. When you consider that this "little" fellow with the big name measures six feet three inches, it is easily seen that he would be long in this world were he to die tomorrow. Frank "prepped" at St. Thomas College, and then came to Lehigh so as to be able to discourse on Chemistry with the same fluency as on his favorite subjects, namely, the West, and chorus girls. But after three years the latter two are still favorites.

His first claim to fame was the wearing of Piccadilly collars, but after the available supply had disappeared, this habit was broken. Lately he has developed into quite a ladies man, and there is talk that he will drop Chemistry and go into partnership with Kurtz Brothers. Frequent visits to their restaurant would seem to indicate some truth in the rumor.

"That's me all over, Mabel."

Ray Long Eisenhard Allentown, Pa.

"Shorty" "Bess"

Met.

Ray Long Eisenhard, known equally as well as "Shorty" or "Bess" was born at Lonswamp, Pa., on December 27th, 1896. He is a product of the Allentown High School and therefore can speak Pennsylvania Dutch with as clear an accent as English. He came to Lehigh to get in a class of good fellows and elected Metallurgical Engineering. The engineering did not bother him but for three years he had a struggle with King Calculus. Even this did not deter him and he had fully resolved to finish this year. The Army called him early in August and his hopes were dashed to the ground. He served for a couple of months in Erie and was then transferred to Camp Dix. He was released too late to return to college for this year.

Shorty is quiet and unassuming but back of that immobile face there is determination and grit which will carry him over many a rough place.

"When's the next car?"

George Alphonse Ganter New York, N. Y.

"George"

E M

George was born in New York City and managed to survive the vices of the "Big City" until 1915. The frequent sight of streets torn up in this town interested him in the earth's "innards" and he decided to become a miner so as to know better the secrets of old Mother Earth. He soon became imbued with the Lehigh spirit and took out life memberships in the Saengerbund, Republican Club, etc. Nevertheless, he has decided to allow these to terminate after July first.

Luck was with him in the S. A. T. C. Luck was early chosen as a delegate to a C. O. T. S. We are sure the, that he ran into more work at this place than he would have had at Camp Lehigh. But the war ended too soon for George to show what he could do to the enemy. So he drifted quietly back at the beginning of the year. We are afraid that George will have to go elsewhere than New York to commune with Mother Earth. It is rumored that the streets are all covered up for the first time in many a moon.

"Darnel if I know."

Joseph Wilkins Gardiner, Jr. Philadelphia, Pa.

"Joe."

Ch.E. Lacrosse Squad (1, 2, 3, 4) Soccer Squad (3, 4), Arcadia (4), Cotillion, Kappa Beta Phi, Sword and Crescent, Delta Phi, Tau Beta Pi..

Quietly, without a herald to announce him, Joe crept into our midst. He took his place in our ranks and set himself to work. Conscientiously, plugging away he found no difficulty in attaining high honors and distinction in a scholastic way. But he is not limited to books alone, as his record in sports shows. He also steps out into society quite successfully. His frequent trips to Philadelphia must mean something else than going to see the dentist.

Joe went to Plattsburgh as a Lehigh representative, and because of his love for the quiet and solitude of South Bethlehem he refused a commission in Uncle Sam's army. His character is expressed in his favorite expression and nothing ever worries him. He takes life as it comes and is a tireless worker on any problem which may present itself.

"Why worry?"

Leonard Bailey Geis Philadelphia, Pa.

"Len"

E.M. Class Footabll (1, 2), Mustard and Cheese (3, 4) Manager Swimming (4), Cheer Leader (4), Banquet Committee (1), Mining Society, A. I. M. E. Pi Lambda Phi.

One balmy fall day in the late nineties Len came to the Quaker City. After successfully sliding thru the much-famed C. H. S., he wandered up the Lehigh Valley to learn something of shaft-sinking and Allentown. He is now a full fledged miner having been initiated by the '19 miners at Hazleton. He underwent the initiation with remarkable composure but it seems that he is not yet convinced of his knowledge of mining. He frequently attends seances conducted by masters in mysticism and asks the same old question: "Will I graduate in June?"

Len has considerable success as a piano teacher, that is on the stage. His soul seems to be best expressed while portraying this part. He also found time to be the manager of the first swimming team. We will not say anything of his luck, too many of the boys have knowledge of it.

"What are you shooting?"

Ivan Preston Gerber York, Pa.

"Ipy"

Ch.E. Assistant Business Manager Burr (3, 4), Treasurer York County Lehigh Club (2), President Chemical Society (4), Sword and Crescent, Delta Upsilon, Tau Beta Pi.

The signing of the armistice is not the only important event which occurred in November. It was on the eighteenth of this month that I. P. cast his first knowing glance on the world.

York High School counts him among its superior graduates who had the good judgment to come here. Ambitious to learn the black art, he entered the Chemical course and spent his Freshman year discovering that the alchemist wasted a lot of time when he tried to turn everything to gold. Ever since he has been busy showing "Dief" and "Doc" and his fellow "lodge" members that the way to pass the course is by writing ads for the old comic sheet, The Burr.

We find in him a judicious combination of brains and pep and think that whatever may be his life occupation he'll be a good'un.

"I hope so."

Charles Grafly Gilman Philadelphia, Pa.

Fleq''' "Charlie"

E.M. Track Squad (1), Manager (4), Varsity Cross Country (2), Varsity Soccer (3, 4), Varsity Lacrosse (3, 4) Mining Society, President (4), Class Secretary (4), A. I. M. E., Sigma Phi Epsilon.

The "Flea" when he first came from the Quaker City was as silent as the Sphinx. He wanted to save his wind, so that he could travel over the fields in the six mile course. But by the end of his Freshman year he decided that he could spare some of it to talk. He has been improving in this line ever since and his reputation as an athlete is both straight and Mexican. Charlie found time to play lacrosse and manage the track team at the same time.

He has developed quite a taste for the ladies and has been known to spend hours talking to the girls over the phone. In fact he stayed up all of one night doing this. Charlie likes the movies and can tell you what is playing at every place in town. He is a conscientious worker and if he does as good work in Arizona he will have a happy time of life.

"Didja? I don't believe you."

Howard David Ginder Scranton, Pa.

"Ginny."

Ch.E. Brown and White Associate Editor (3, 4), First Honor Freshman German, Third Honor Sophomore Physics, Junior Oratorical Contest, First Honors Ch.E. (3), Tau Beta Pi, E. L. duPont Scholarship, Phi Beta Kappa.

"Ginny" was born in 1897 in the village of Rockport,no, there is no use looking for it on the map,—but that place was too small to hold him and he finally landed in Scranton. After copping most of the honors in Scranton Central High School he looked around for more worlds to conquer and finally picked on Lehigh. A glance at his college honors will show how successful he has been in the gentle art of kidding the faculty.

Thru prolific letter writing he developed literary abilities and has done good work for the Brown and White. However, an event in his Junior year would seem to indicate that he should stick to writing and not tackle speech-making. Frequent week-end trips to Scranton show some attraction in that town other than coal mines—but who knows?

"You and me both."

Curtis Buttz Gorisse Lebanon, N. J.

"Greaser"

C.E. Class Baseball (1, 2), Varsity Soccer (1, 2, 3), Varsity Track (1), C. E. Society.

It was on a not summer's day in August, in 1897, that Curtis with "shining morning face" came into the world at Madison, N. J. Prepared, we are told, at Curtis High School, he finally stepped upon the threshold of Lehigh and has helped adorn the campus for four years. During the regime of the S. A. T. C. "Greaser" was absent for a time. He spent this period in the camp of the eneny, down the river. After telling them for two months that they would not win in football, his prophecy was fulfilled. Then he returned with the victors.

He had a leaning toward botany, being fond of "rubber plants." This led him to a study of biology, since his knowledge of "cells" was very pronounced. His last two years have not been very exciting, except for his week-ends at Quakertown, N. J., where he will probably some day find contentment and rest.

"Il'e're gonna bring in the wolf tonight,"

Edwin Adams Hartney

Allentown, Pa. "Eddie."

B.A.

Here is a man who was born in Plain field, N. J., in 1897, prepared for Lehigh at the Bethlehem High School and now lives in Allentown. As a combination it cannot be beaten. Early in the morning the conductor on the Allentown car receives the fare of this seeker after light and, when the buildings of the University close at 6 p. m., Eddie sadly takes his regular seat on the car returning to Allentown. It is with refuctance that Eddie leaves the campus each day as he thinks the only way to gain knowledge is to be on the job all the time.

When he leaves the campus for the last time, Eddie is undecided as to what he will do. The profession of teaching and sky-piloting both attract him. We think he might as well toss a coin and leave it to chance as to the choice. He will be of service to mankind in either case. A hard worker, he will always be welcomed by the people who need assistance in time of trouble.

"How do you make that out."

Alfred Carl Haussmann
Fox Chase, Pa.

B.A. Varsity Lacrosse (3, 4), Arcadia (4), Treasurer Arts and Science Club (4), Phi Beta Kappa.

The gentleman who is gazing at you from above with such scornful eyes is from Fox Chase. This perhaps accounts for his look as it is acquired by the inhabitants of that region from looking at Philadelphia. Perhaps it is a case of sour grapes. He absorbed all the knowledge from the books in Cheltenham High School and then decided to come to Lehigh. We think it was with the desire to add to her greatness, but the Sophs soon dispelled that idea.

"Al" fooled everyone. He was devoted to the ladies, to the movies, and to lacrosse. Then on a bright fine day he comes around with one of those little square keys which are given to the men who have fair marks. What "Al" is going to do after he leaves here is doubtful, but everyone hopes he gets the key to the world.

"Thatta boy."

John Beaver Heilman Lebanon, Pa. "Johnny."

El.Met. Class Football (2), Phi Delta Theta.

"Johnny" was born at Heilman Dale on the farm. He wandered over hill and dale for about fourteen years and then he went to the place made famous by Elsie Singmaster, Lebanon. He wanted to be a doctor, but the idea of seeing people suffer could not be stood by this mild mannered youth, so he changed to Metallurgy. He is quiet, steady, retiring and always ready to help. Some say he is an idealist; but we know that he is a deep thinker, and he comes across with the goods in a tight place.

He has hopes of becoming a power in the electro-metallurgy world and with this in view does not spend much time in the frivolities of life. Anyway Johnny is a married man and he may be answerable to someone else for his activities.

" Now, say."

Fred Henry Hesselschwerdt Buffalo, N. Y.

"Freddie."

Ch.E. Wrestling Squad (3), Y. M.-C. A. Cabinet (4), Treasurer Chemical Society, Inkwell Club, Tau Beta Pi.

The Falls of Niagara were silent one day in honor of the arrival of Freddic in town. His cry, however, awakened the Falls to activity and never since have they been silent. Freddic is a product of the local schools and was urged to attend Lehigh by a missionary from this place. Freddic came, saw, and liked the place so much that he has stuck to the chestnut trees ever since.

But as the chestnut trees have been cut down Freddie is going to leave. He has not been cut down by the faculty but jeaves with honors.

For a hard plugger the class has no equal. He has not only worked hard on college duties but has worked hard enough outside to put himself thru the University. Our hats are off to you, Freddie, and may you have happiness, joy, and success in other walks of life.

"I'll bet I flunked that quis,"

Harold Sprague Hiller Buchanan, Mich.

"Doc."

B.A. Sophomore Physics Prize (2), Junior Honors, Arts and Science, President Arts and Science Club (4), Phi Beta Kappa.

"Doc" belonging partly to Washington and partly to Michigan, came to the Lehigh Valley for an education. There is no doubt that he got what he came after. During the first three years movies was his principal pastime and he became well acquainted with the shadow stars, particularly with those of the female sex. Their pictures adorn his room from floor to ceiling. However, during the past year he has forsaken those of the screen and has turned to the maidens of the surrounding towns.

The ambitions of this prodigy are vague, but we think that they turn to the field of law. Perhaps "Doc" is cultivating the fairer sex in order to obtain its support in a future political campaign. It may be the right way to start in and we wish him all the success there is, in any future endeavor in this field.

"Going to the Orpheum?"

John Myers Howard, Jr. Latrobe, Pa.

"Johnny"

Bus.Ad. Freshman Banquet Committee, Arcadia, Cotillion, Beta Theta Pi, Class Day Committee, Sword and Crescent.

Latrobe claims "Johnny" as one of its first citizens. He wanted to see what the eastern part of the state looked like so he boarded the train for the East and fell off at South Bethlehem. After becoming familiar with all of the ropes at this insti-tution the war butted in and "Johnny" left to go in the army.

He had originally started as a mechanical engineer but during his absence Pop Klein departed from this earth and when "Johnny" came back he was disappointed. He felt that there was no longer anyone in Bill hall to teach him anything, so he changed to the business course. He will not be able to finish with us but he will stay around for a little while and tell the boys how we used to do it.

"You tell them."

Clarkson Toms Hunt Lansdowne, Pa.

"Mike."

M.E. Class Track (1, 2), Varsity Track (2, 3), Class Treasurer (4), Secretary M. E. Society (4), Banquet Committee (4), Sword and Crescent, Chi Psi.

It was a happy day for the girls in Bethlehem when Mike decided to improve himself in body, mind, and soul by coming to Lehigh. So he took leave of his youthful companions at the Episcopal Academy, Philadelphia, and settled down on South Mountain. Evidently Lansdowne is rather short of plumbers for Mike spends most of his time in the Mechanical Department. Perhaps, tho, the mayor was intending that a trolley should be built on the main street. Like the Athenians, Mike believes in developing himself physically as well as mentally, so with his spiked shoes he picks the cinders off the tracks and shakes the knots out of his lower limbs.

"Confidentially speaking."

Edgar Henry Iobst Emaus, Pa.

"Hen."

C.E. C.E. Society.

A small community on the outskirts of Allentown has claimed Edgar as its own since 1896. The educational advantages of Emaus were only utilized until the second year of high school. Allentown Prep was the last port of refuge before starting for Lehigh.

Edgar has been a prominent member of the C. E. course and has advanced many ideas. His best one was when he told Prof. McKibben that Arts and Business subjects should be introduced into the C.E. course. He defined an engineer as "a human slide-rule." If Edgar does not make a success on what he learned in engineering, he will get thru on his nerve. We are proud to say that in the S. A. T. C. he was a self-appointed sergeant, and got away with it.

A better student of nature cannot be found. Our lobst has idealistic thoughts with regard to the fair creatures. We are convinced of this fact since he spends his week-ends at Emaus.

"Gotta cigarette?"

Ralph Franklin Johnson Washington, D. C.

"Sam."

C.E. Wrestling Team (3), President C.E. Society, Freshman English Honors, Sophomore Math. Honors, Theta Xi, Tau Beta Pi, Phi Beta Kappa.

About four years ago the above representative of the City Beautiful, accepted the usual invitation to an unusual teaparty, was duly impressed by Thorny and registered at Lehigh as a C. E. (Endeavor but not Christian). Dr. Samuel Johnson must have turned over in his grave when they dubbed him "Sam" for neither Engineering, Wrestling nor Society as a Fine Art were among the eccentricities of this worthy English critic. But in spite of a brief intermission "to get the Kaiser" (which culminated only in the Battle of Camp Taylor) Sam pulled through on schedule time and is with us yet. Not heing a fatalist we can't prophecy as to the future, but if it is as successful as his college career, we will be glad to say, "He's a Lehigh Man."

"There's something in that."

Rollin Reuben Keim Bethlehem, Pa.

"Keimy." "Boh."

Ch.E. Chemical Society

Reuben, Reuben, I've been thinkin, of the day when you arrived in Bethlehem, back in '98. It must have been a great day in the old town when it found out that here was another youth for the college across the river. The training he received at the Bethlehem High School has carried him for four years at Lehigh. Nothing can be said against Bob so it all must be for him. He is quiet and never startles any one by his noise. He has worked faithfully during his whole college career for a dip and the Faculty is going to reward him. It is reported that he is as faithful in worldly matters as he has been in scholastic affairs. Yes, we mean that Bob is in love and is contemplating matrimony.

Keiny has gone thru four years without attracting much attention to himself but those who have been with him have learned to appreciate his quiet endeavors; he is sure to win the same appreciation when he gets into the wide, wide world.

"How do you get that way?"

Herbert Spencer Kirk New Castle, Pa. "Micky."

Bus.Ad. Varsity Wrestling (2), Cotillion, Theta Delta Chi.

"Micky" first saw the light of day in western Pennsylvania, and it was a case of love at first sight, for he has remained there ever since. Of course one must not take into account the two years he was with us. He first started as a Chemical, but the atmosphere of the department did not please him, so he changed to Coppee Hall. While in this province he tried to convince Bickley that accounting was not as it was taught.

For over a year "Micky" was one of Uncle Sam's Naval Birds. He spent the winter in the north, the summer in the south and the fall in France. Since returning to this side he has accepted a position with a local pottery, "Micky" will always be remembered as a wrestler (both kinds) and his bout with the Penn State man was one of the best ever seen in the local gym.

"The bigger they are the harder they fall" and "My Gawd."

John Albert Knubel New York, N. Y. "Johnny"

C.E. Track Squad (I), Class Basketball (1), Theta Delta Chi.

Johnny is another who hails from the City of White Lights, New York. He spent three years at the High School of Commerce and then a year at Hamilton Institute in preparation for Mr. Lehigh's college. His college career was smooth and placid for two years when the war bug bit him.

The Navy got Johnny in May, 1917, as a Machinist's Mate for C. E. duties. He was sent to Boston and then to Harvard where he got his commission in January, 1918. His first assignment was on the U. S. S. Vermont. Then he got on S. C. No. 223 and went to Portugal. He wandered around in Southern waters until December of 1918, when his boat was ordered to Haiti for permanent duty under the Marines. Johnny is now having a good time doing nothing in the Southern Isle.

"Howdee Buddy"

Albert Anthony Korves

"Al" "Fish"

E.M. Mining Society, Curator (4), Sword and Crescent.

"A!" is a native pure and simple. He was born in South Bethlehem, went to high school here and then went up the street to college. He had a handicap of eighteen years on the rest of the class. "Al" was on speaking terms with the cops before any of us knew the of place.

As a ladies man they all fall for him, and tho he does not claim to be a Vernon Castle, still he admits that he can get around the floor as well as the next one. He has an enviable reputation as a sincere and steady worker. There is no doubt in our minds, that someday when we read the mewspaper, that a notice will appear stating that the celebrated mining expert, Mr. Korves, has discovered a new deposit of something which the world will need. Here's luck to you, "Al."

"I know her."

Beeton Pullman Lauder Bridgeport, Conn.

"Scotch"

M.E. Class Football (1, 2), Lacrosse Squad (1, 2), Varsity Lacrosse (3, 4), Musical Clubs (3), Mustard and Cheese (2), Costumer (3), President M. E. Society (4), Tablet Orator, Alpha Tau Omega, Tau Beta Pi.

The Scotchman was born some twenty-two years back in Professor Stewart's favorite city—yes, Bridgeport, Conn. He has safely lived down the fact that he was born there and is now one of the members of Asa Packer's community. He is not only a member of the roughneck lacrosse team but also is well versed in the stage. That he is a scholar goes without saying. He is getting by the gates on time even tho he was out for a short time as a lieutenant In the army.

"Scotch" is not blessed with excessive diplomacy—thank goodness—he is straight straightforward to a fault, level headed and the staunchest of friends. We wish him the hest of luck when he gets back in that Connecticut town.

"There's all tonight and tomorrow hasn't been touched."

Morris Lawrence Scranton, Pa. "Mike"

Ch.E. Brown and White (3, 4), Epitome Board, Assistant Manager of Baseball (3); Manager (4), Secretary of Chemical Society (4), Treasurer, Section B (3), Chief Section B (4), Arcadia (4).

After passing thru the public schools of that little mining town in northeastern Pennsylvania, Scranton, and copping the honors at Central High School, "Mike" came to Lehigh in the fall of 1915 determined to repeat the same performance at Lehigh. All went well for the first two years, but alas Junior year brought Economics and dished Tau Beta Pi aspirations.

With scholastic honors not to be had, "Mike" turned his attention to other fields and tried his literary ability as a pen pusher on the "Brown and White" and "Epitome" boards, and his managerial ability in guiding the fortunes of the baseball team.

In his Senior year, not having enough to keep him busy in the Chemistry building and in other activities, he turned his attentions to the ladies for further fields of conquest and it is rumored met with some success.

"I'll say so."

Levi Roy Lewis Clarks Summit, Pa.

"Lew."

M.E.

"Lew" was born somewhere in the centricled to go to college. He started at Bucknell but after one year decided to go to college. He started at Bucknell but after one year decided that he would go elsewhere. He entered Lehigh in the fall of 1914 but on account of illness was forced to stop after six weeks. However, the atmosphere of Lehigh had charmed him and he came back the next year. Those six weeks were eventful. He attended a tea party and all the scraps, in one of which it took six men to tie up a poor Sophomore.

Levi went to Plattsburgh and made good, getting a commission in the army, He came back at the first of the year and will finish on time.

While at Lehigh his achievements, tho not meteoric, have nevertheless been meritorious. He has justly earned the reputation of an earnest student and a good fellow. Faithful, quiet, and trusty, never fear for his success in years to come. "You don't know how much you have to know, in order to know how little you know.

Grier Lloyd Hazleton, Pa.

"Lloyd"

M.E. Vice-President Class (2), Cotillion, Sigma Phi Epsilon.

Grier is another who has known the valley all his life as he comes from that place of coal, Hazleton. He had a lot of fun while preparing to enter Lehigh, as he went to Bethlehem Prep. He was working hard at the end of his Sophomore year and having a success of college. But the call of Uncle Sam was too great and he enlisted in the regulars. He went across early and a Hun machine gun got him in the knee. However, it could not put him out and today he is with his company on duty in Germany.

Lloyd is an expert on the girls and he says that the girls in France are nice but none of them can come up to the ones in the U.S.A. No matter when he gets out of the service he is coming back to Lehigh and take up his work where he left it in the spring of 1917. With the spirit which he has shown and the determination to finish anything which he starts there is no need of prophesying a successful future, it is admitted.

"Somebody choke that bugler."

Raymond Woodruff Ludlow Keansburg, N. H.

"Lud."

Bus.Ad. Brown and White (1, 2, 3,4) Assistant Editor (3), Managing Edissistant Editor (3), Managing Ed-President (4), Arcadia (3), Epitome Board, Junior Prom Committee, Chairman Senior Classbook Committee, Class Day Committee, National Executive Committee College Newspapers (3), Sigma Phi Epsilon.

Early in the fall of 1915 a young man, whom destiny seems to have picked to be quite some light in the commercial world, wended his way up South Mountain and pausing a moment before Packer Hall entered in search of Thorny's sanctum where, without any undue hesitancy, he signed up to fool Professor Stewart for four years. The wiseacres said it couldn't be done, but Raymond opined that "he'd take a chance."

To get down to facts, "Lud" first excited the newspapers January 19, 1898, at Swedesboro, X. J. He moved about the state considerably and finally ended at the Millville High School. At Lehigh he promptly astonished the journalistic satellites by his efforts on the Brown and White from which Board he recently retired as Managing Editor. He also tried his hand at dramatics and has played for three years in the Mustard and Cheese productions.

"()h, I don't know."

William McKinley Olyphant, Pa.

"Mac" "Bill"

B.A. Arcadia (4), Arts and Science Club, Lackawana-Lehigh Club, Phi Sigma Kappa.

"Mac" is another who is a product of the coal regions. Ye gods, the class is thick with them. He was born just in time not to be classed with the vintage of 1899. He is one of the landmarks of Bethlehem as he entered Bethlehem Prep, in 1912. Whenever any one wants information concerning the town they are referred to "Bill." He is well posted on the affairs out of college, Allentown, Saylor's Lake and the 12.10. In fact, we think that he is president of the latter owing to seniority.

He has chosen sky-piloting as a profession and therefore resides at Leonard Hall. "Mac" leaves town nearly every week-end. He says he is called by his profession. He has a good word for the ladies, all kinds, and you might find him anywhere.

With his Irish spirit of adventure and a desire to see Paris, he became an ambulance driver with the French army on the Verdun front. We cannot see him as a Bishop but as he says, "you never can tell."

"Do you think you will ever go back."

George Ronald Macdonald Dorchester, Mass.

"Buckie"

Bus.Ad. Varsity Football (1, 2, 3) Captain (4), Basketball squad (2, 3), Lacrosse squad (2), Cotillion, Scimitar, Phi, 18 Club, Beta Theta Pi.

"Buckie" is a product of New England after gathering all the laurels at Boston Latin school, he drifted to the Dutch community to see what kind of pickings he could find. He was pretty successful as close to the town in which he settled was a rival institution. "Buckie' thought that it would be a lot of fun to go down the river and bring back the bacon. But after his first year it became a war to the death. In two encounters he helped to trample Lafayette's colors in the dust.

We missed him from the lineup this year but he had to take on another job, that of beating down the Kaiser. He got in Naval Aviation and was about ready to go across when "Bill" threw up the sponge. "Buckie" has not been able to get out of the service but he will be back strong in the fall. Then watch him live up to the reputation which he made as a member of the class of 1919.

"Let's go to work."

Milton Augustus Manley
Brooklyn, N. Y.
"Milt."

Bus.Ad. Vice President Class (4), Varsity Wrestling (3, 4), Chairman Banquet Committee (4), Intercollegiate Champion, 175-lb. class (4), President Y. M. C. A. (4), Mustard and Cheese (4), Chairman Banquet Committee (4), Sword and Crescent, Sigma Phi Epsilon.

Augustus is a native of Brooklyn, but at a tender age was transplanted to a farm in the vicinity of Newton, N. J. "Milt" gamboled about the farm and waxed good-looking and strong. Lehigh even if it has not added to his mental ability has made him stronger and better looking. He started to learn the wrestling game (both kinds) in his Sophomore year. Since then he has been a consistent winner, not only for the team, but for hinself. During his senior year "Milt" has been hitting the high spots of Bethlehem society, being a regular visitor at Bishopthorpe.

Feeling that the export business did not have any men of ability in it "Milt" is going to sell South America all the machinery it needs. In order to facilitate his business he has returned to his native city. We wish him all the luck there is with the South Americans.

"Hey, where are you going."

Cyril Glennon Melville Harrisburg, Pa.

"11'op" "Mel"

C.E. Class Football (1, 2), Freshman Basketball, Basketball squad (1, 3), Class Historian (2), Secretary Arcadia (3), Assistant ManagerTrack (2), Manager (3), Cotillion, Cyanide, Kappa Beta Phi, Sword and Crescent, Sigma Nu.

As it is impossible for one to make a personal selection of the landing place, "Mel" happened to hit this earth at Harrisburg, Pa. But as one can live down or up to a birthplace, what difference does it make. It may have been that the grafting was too easy in the Capitol City, which caused the "Wop" to come to Lehigh for a course of higher learning. But life was just as easy in South Bethlehem as at home and "Mel" did not have much trouble in getting by the faculty. He stuck here for three years and then becoming bored he left to join the Navy.

"Mel" had the happy faculty of making friends easily and this ability was not only limited to males. He was a hard worker and always put his best into anything which concerned the University, With this spirit his path thru life will be

"I'll see you later."

Charles Dorney Mertz Frackville, Pa.

"Seed v."

M.E. Mustard and Cheese (2, 3, 4), College Orchestra (3), Treasurer M. E. Society (4), Theta Xi.

Among fields of snow, early in the month of December, 1890, "Seedy" first gained consciousness. He found that his birthplace was not satisfactory so, he abandoned it for the joys of Frackville. This also proved unsatisfactory as he had to go to Shamokin for his high school education. We do not know why he came to Lehigh. It may have been because of the excellent beer which is produced in this neighborhood.

He has made a decided conquest among the girls in the vicinity. It is not uncommon for him to be summoned from bed in the morning to talk to one of the fair ones. His ability to tickle the keys has been a great help in charming the ladies as well as standby at all college functions where music is required. His schloastic ability was shown by his keen interest in Machinery of Transmission (something no one understands). We hope that he will be able to use it in explaining to some youngster the reason the wheels go 'round.

"Do you know it?"

Frederick Dent Nawrath Newark, N. J.

Ch.E. Brown and White (1, 2, 3, 4), Assistant Editor (2), Managing Editor (3), Editor-in-Chief (4), Editorin Chief Epitome, Manager Soccer (3) Y. M. C. A. Cabinet (4), Class Historian (1), Class Secretary (2), Cotillion, Cyanide, Kappa Alpha.

This red-headed Irishman comes from that busy city close to New York. He says it is bigger than New York. Well, it may cover more ground, but what's that. He has aspirations of some day, the God's willing, becoming a Chemist. "Red" has relied upon his ability to sling a good line, rather than work, in passing thru the course of an engineer at Lehigh. But then all of us acquire that gentle art sooner or later while at this institution.

No one can tell whether "Red" takes life seriously or not. He has moments of remorse and, then, we think he is serious; but soon after that he can be found anywhere except in the river. His genial nature and his ability to express himself, with or without sarcasm, will go a long way to put "Red" on the high road of success.

"I admit it."

Andrew John Nicholas Eckley, Pa.

"Nicky" "Shorty"

M.E. Wrestling Squad (1, 2, 3), M. E. Society.

"Nick" was born in No Man's Land (the coal regions) on a Sunday night. Whether this has had any effect on his size we do not know. However, when he was six he tried to go to the public school. The teacher sent him home thinking he had made a mistake and taken the school house for a nursery. He went back the next day armed with a note and showed that he could stick it out. He knocked around the Mining and Mechanical Institute at Hazleton and then tried to be a machinist for three years. He gave this up in disgust and came to Lehigh.

He says if he had money enough he would build a bungalow and get married. Perhaps there are worse things in life than doing this but who knows. We wish you luck and wherever the bungalow is, remember that you are still one of the class of 1919.

"Say, who is she?"

Thomas Carson O'Neill Altoona, Pa.

"Tommy." "Snork."

E.M. Sergeant-at-Arms (3, 4), Class Football (1, 2), College Secretary (4), Mustard and Cheese (4), June Hop Committee, Banquet Committee (4), Band, Class Prophet, Phi, Cotillion, Cyanide, Kappa Beta Phi, Sword and Crescent, Kappa Sigma.

Snork comes from a town which was made famous by the car shops of the Pennsylvania Railroad. When he came into the world he tried to rival all the locomotive whistles which are in the round house out there. He drifted into South Bethlehem and proceeded to conquer the town with his abilities. For we have to hand it to Snork; he has two of an A-1 class. He can make a drum do tricks which it never expected to do. So Tommy has been a mainstay at any place where music is needed. Then he has a taking way with the women. He is known from Allentown to Easton. At many a dance you can hear: "Did you have a dance with that handsome man over there, Mr. O'Neill." Tommy has put the life into many an occasion and we will miss his wit when we part.

"Beedle pussy."

Thomas Stanley Pengelly Hazleton, Pa.

"Pen."

Bus.Ad. Class Relay Team (2), Varsity Track (3, 4), Delta Upsilon.

Besides being famous for its coal mines, Hazleton also has the honor of producing Thomas Stanley. He first started to notice the breakers in 1894. He lays no special claim to have accomplished anything spectacular in his early years. He followed the course of most youngsters and went thru the local schools. Looking about for a place in which to pursue higher learning his eyes rested upon the University of Rochester. Illowerer, the call of the Walley was too strong, and after spending a year at the New York institution he came to Lehigh.

"Pen" started as an electrical but changed to the Business course, not for the usual reason either. Uncle Sam had him for a over year in the field artillery and he copped a commission. On being mustered out he heard Packer Hall ringing eight o'clock and "Pen" returned to get another crack at Lafayette and the dip.

"Daddy."

Edward Thomas Petrik Baltimore, Md.

"Pete" "Pat"

E.E. President E. E. Society (4), Tau Beta Pi.

Pete has only been with us for two years and it has been rather hard to know as much of him as we wished. He was born in that good old city of Lord Baltimore's in the year of our Lord 1897. He graduated from Baltimore Poly in 1915. For the next two years he worked in the metallographic laboratory at the United States Naval Experiment Station. Deciding that he wanted to be better equipped for making money he took a few exams for advanced standing at Lehigh and entered in the Fall of 1917.

We will hand it to him; he is good. A man who can come here, enter in the Junior year and convince Billy Esty that he should have A's in all his subjects needs no further recital of his ability. Pete, we wish you God speed on your journey thru life and hope you will remember the two years you spent with us "Hello kid."

Lawrence Frank Reed Crwigsburg, Pa.

"Doc "

M.E. Class Baseball (1, 2).

Lawrence was born in Orwigsburg which is somewhere in Pennsylvania, on the nineteenth day of October, 1895. He prepared for some place at the Franklin and Marshall Academy. Casting his eye over the country for a school, which would give him a decent start in Mechanical Engineering, he was attracted by Dr. Klein's offer and came here. How well he got along in his work we do not know; anyway he managed to stick until the bugle sounded. Doc was in soon enough to get a chance to see some of France and he has not yet returned from the other side.

You can't help liking Doc for he is always ready to do a favor and has an ever-present smile. We know that his cheerful disposition has stood him in good stead while he has been hustling around working for Uncle Sam. He is sure to have friends wherever he roams and we are glad to be counted among them.

"Fall in, Line up, About face."

R'cklef Allen Reid Glen Ridge, N. J. "Rick" "Reckless"

E.E.

Mong the banks of the Mississippi, in St. Looey, to be exact, during the flood season of 1897, Ricklef came along to draw breath. Fearing that he might be contaminated by the temptations of a large city, the house of Reid moved to a quiet village in New Jersey. However, the spirit of the West lingered and "Rick" heeded the call of the Colosseum and Mealey's and came to Lehigh. Since then his record in pursuit of knowledge has been of the highest type.

Prepare yourself for a shock. At the present time suffice it to say that "Reck-less" signed up as an aviator. History in time will record more vividly the details of it. The Kaiser was dunstruck, saw his finish and signed the armistice the next day. With no one else to conquer "Rick" returned to college to see if he could bulldoze the faculty into giving him a degree.

"Oh Wincent, will you have winegar on your wittles."

Benjamin Haines Rigg

"Skime."

C.E. Swimming team (1), Arcadia, Cyanide, Kappa Beta Phi, Sigma Phi Epsilon.

"Skime" early in life conceived the idea that a bridge was needed from his home town of Burlington to the Pennsylvania shore. In order to study bridges he came to Lehigh in the Fall of 1944. He felt that the scholastic work interfered with his social duties so he left at the end of the year. We would have you understand that he did not flunk out. He journeyed to the South and entered Washington and Lee. The social advantages of the place pleased him but he found that he could do no scholastic work. The next year he came back and took up his work where he had dropped it a year before.

He possesses a dry wit which makes him very much in demand at all social gatherings whether stag or mixed. He is not at a loss in the art of handling a pencil and some of his caricatures are elever take-offs of his classmates. This year he has been placed in charge of all those who are not able to swim and he has done good work. The future does not worry him; he lives for today.

". Now, see here."

Robert Travers Rohrer Washington, D. C. "Bob." "Pots."

Doo. Pols.

M.E. Delta Tau Delta. Pots was born on the eleventh day of the fifth month, in the year of our Lord One Thousand Eight Hundred Ninety-Six, at the eleventh hour preceding the arrival of the sun at the meridian, in the city of Altoona, state of Pennsylvania. Having said all this you can deduce if you take the time, that he is about twentythree years old. The high altitude of Altoona not being suitable for his growth the Rohrer family transplanted him to Washington, D. C., feeling that in time he might become a President of something. But Robert did not not want to be a President, so instead of playing in the White House grounds he went to the Western High School and finally came to the state wherein he was born to finish his education.

While at Mr. Lehigh's college Pots never missed a night at the movies. He had a regular schedule which he followed and the show changed often enough so that he did not repeat a show. After the show he would always study a little. In February of 1917 he left college and got in the Ambulance service and saw some of sunny France. From the tales he tells he had a good time and we hope he will always have them.

"II'hat's the bill tonight"

Joseph Lewis Rosenmiller York, Pa.

" Toe "

E.M. Secretary York County Club (1), Treasurer Mining and Geological Society (2), Business Manager Epitome, Chairman Junior Prom Committee, Vice-President Y. M. C. A. (4), Arcadia (4), Mustard and Cheese (2, 3, 4), Business Manager (4), Captain Swimming team (4), Class Book Committee, Cotillion, Cyanide, Kappa Beta Phi, Sword and Crescent, Phi Delta Theta.

"I'm a devil cause you see, I was born in gay Paree."

And he still lives, despite the fact that in infancy this York County Dutchman was exposed to the wiles and temptations of French wine, women, and song. Time has not dulled his affection for any of the French virtues.

Water has supplanted the flowing beverage and "Joe" had the honor of being the first man to capture a first place for the swimming team. His time at Lehigh has been marked by an active participation in college affairs without slighting scholastic work. It would not be at all surprising to see him blossom forth as a manager of some corporation.

"Hey! Gees."

Ellwood M. Rowand, Jr.
Haddon Heights, N. J.
"Red."

M.E. Sigma Phi Epsilon.

Ask him where he comes from and he will tell you Philadelphia. But if the truth be known, hi is a little town across the the river, six miles out in Jersey. He started at Drexel to become an engineer, but the place did not suit him so he came to Lehigh. His one delight is to pull one over on the faculty and we must say he has gotten away with a great deal of stuff. He arranged his course in the Mechanical department, about to suit himself. If he wanted to take a subject he took it, if he didn't he took something else. His fluency in foreign languages is marked and is appreciated by all who have been in the classes with him.

Some there are who come to college because of a maternal wish and a paternal contribution, here is one who has prepared himself for an engineering profession in a way which can only mean one thing, Success. We hope, Elwood, old boy, that you have as much success in getting thru life as you have had in getting thru college.

"Damn if I know."

William D. Schrader Allentown, Pa.

"Bill." "Dutch."

E.M.

Sometime in the spring or summer of 1915 the City Council of Allentown must have passed an ordinance which compelled men, desiring a higher education, to come to Lehigh. We have so many residents of that city in the class that this seems the only explanation and Bill is one of them. He had the usual puerile experiences while passing thru the halls of the local high school. It is impossible to describe in black and white Bill's ability as a musician. He can make a saxaphone moan and sigh as if it were a human being. Therefore, he has been able to have a good time

Early last summer Bill jumped into the Coast Artillery and was stationed at various places along the coast with the big guns. The call of college is strong and he will be back next year to give the faculty a run for its money.

picking up stray money at dances.

"Il hat did you say?"

Frederic George Sefing Allentown, Pa. "Fritz."

El.Met. Track Team (2), Glee Club (1, 2), Mustard and Cheese (3), Metallurgical Society, President (4), Cotillion, Kappa Beta Phi, Sigma Phi Epsilon.

You would never dream, girls, that this gentleman, who is gazing at you so serenely from above has the daintiest lips imaginable. He has, and coupled with a Dutch accent, as he is from Allentown, it is really charming. "Fritz" was two years at the Allentown High School, and in order to study the dialect of South Beth lehem he entered Bethlehem Prep. It took him two years to cross the river and then he was too late to get in the opening fight. But the next day he came around strong and his melodious voice has been heard for four years on the campus.

He has been interested in athletics from a spectator's viewpoint, except for a little activity in track, which has since developed into a tendency to run to Emaus every day. The class extends its heartiest congratulations "Fritzie boy."

" No kiddin' or nothin'."

John Jay Shipherd Evansville, Ind. "Pop"

Ch.E. Class Football (1, 2), Class Secretary (1, 3), Chairman Freshman Dance, Associate Editor Brown and White (1, 2, 4), Assistant Editor (3), Assistant Editor Epitome, Assistant Manager Baseball (3), Associate Manager (4), Cotillion, Scimitar, Cyanide, 18 Club, Chemical Society, Delta Tau Delta.

Hailing from the wilds of Indiana, one John Jay has done a great deal toward putting that young burg on the map. Pop. so-called, because of his dominant influence over his fellow associates, was born in 1896. After passing thru the local high school, he continued his career as a student (2) at Bethlehem Prep.

He has been in many different activities at college and his success and popularity may be due to his ability as a Mexican athlete. After being in the service for over a year and a half he returned to finish the battle for a degree. His future is assured as an authority on substitutes for alcoholic beverages.

"Do you know her."

William Blottenberger Shirk Lebanon, Pa.

"Bill" "Ben"

E.E. Baseball Squad (1, 2), Vice-President E. E. Society, Phi Delta Theta.

The above specimen of Lebanon drifted from his home looking for an education and upon the advice of some traveling salesman decided to settle in this Moravian town (to reform it) and incidentally be exposed to the course in electricity.

Big Ben was one of Uncle Sam's warrises in the recent fracas, serving as a Lieutenant in the Field Artillery. This started his fighting blood and he immediately took unto himself a wife. Neither Allenstadt nor Beslem charmers could floor him and it remained for a girl from the old home town to win.

There is now a little Ben and, would you believe it, he is a regular infant prodigy. The second day he surprised them by screaming "Da da, when do I go to Mr. Levi's college." Father and son will be back in college next year. "Do it and do it quick.

John Malcolm Skillman Oldwick, N. J.

"Jimmie"

E.E.

A notable prodigy is James Malcolm, born in New Germantown, N. J. Having graduated from the Somerville High School which he claimed prepared him for Lehigh, he entered the University portals with the high ambition of sooner or later becoming an electrical engineer. He had a varying career while here. We think that "Jimmie" had a girl back home, but nevertheless this did not deter him from participating in the May-pole parties at Bishopthorpe.

He was said to be a mighty fine boatman, having quite a reputation for sinking schooners. On the strength of this reputation, in December of his Junior year, he joined the navy. He hopes, if he is ever released, to return to the dear old Valley and realize his ambition of becoming an electrical engineer.

"Why worry about small detail :."

Harold DeWitt Smith Bayonne, N. J.

"Red" "Smittv"

Ch.E. Lacrosse Squad (2, 3), Y. M.-C. A. Cabinet (4), Arcadia (4), Chemical Society, Tau Beta Pi.

When asked for his biography "Smitty" said he would leave it to the committee. Well, we won't take advantage of that confidence and spill any state secrets. Therefore, H. D. W. Smith was born on a bright fall day, September 27, 1896, to be exact, at Bayonne, N. J. What his first words were we are not able to tell. Anyway, he took the usual course and went thru the local high school. He came to Lehigh in the fall of 1915 and has been here ever since except for a slight vacation this past fall as an officer in the S. A. T. C.

His words always lend weight to any occasion as he weighs close to two hundred pounds. We feel sure that "Smitty" will be able to close his biography by saying "he was an eminent and respected citizen of this community."

"O Jassers!"

James David Sourber Catasauqua, Pa.

"Jimmv."

B.A. Glee Club (1, 2), Sophomore English Prize (2), Swimming Team (4), Phi Beta Kappa.

"Jimmy" was born at Pottsville and prepared for Lehigh at that place. In order to be nearer the college he moved to Catasauqua and daily he gives the railway company some money. Nevertheless, he has found time to be in college and has been active in more than one line.

Many a classmate as well as members of the under classes will thank "Jimny" for his willingness to help them on some stiff problem and we have no hesitancy in saying that he is one of the best liked men in the class as well as in college. Plattsburg called "Jimny" in July and he showed his ability up there and was sent to Ohio to help in the work of defeating Germany. This absence did not prevent him from returning and finishing on time with high honors.

"You tell 'em, Brother, I stutter."

Otto Henry Spillman

Bethlehem, Pa.

"Doc."

C.E.

The first thing which Doc heard when he came into this world was the sound of coal going thru the breakers, as he is a native of Wilkes-Barre. But recognizing the advantages of a town with five institutions of higher learning his parents brought him to Bethlehem in childhood. Doc went to Prep, then crossed the river to get a little more of that knowledge which does not come from books.

For a short time Doc journeyed thru South America but we do not know that he brought any bad habits from that continent. He evidently likes the sea because he takes an excursion in a schooner quite frequently. It is said that he can handle one with ease. All kidding aside, Doc is a hard and conscientious worker. In fact, some of his classmates think that he does his work too well. It will never be said that Doc did not do what he was told to do.

Dontchooknow."

John Malcolm Stevens Montclair, N. J.

"Steve"

Bus.Ad. Class Track (1, 2), Varsity Track Squad (1), Kappa Beta Phi, Kappa Alpha.

The gentleman whose likeness appears above, was born in that part of New York known as Brooklyn. From here, he was taken—he could not take himself—to the beautiful suburb of Newark, called Montclair. After graduating from Montclair High School, "Steve" decided Asa Packer's institution had a lot more to offer him than the majority of other places. Thus one bright morning he came to Bethehem. It was not long after his arrival that John knew about everything there was to be known about Lehigh. In fact the Brown and White came to him for information for this man made it his business to be "in college."

At the end of his Sophomore year "Steve" left to dazzle the business world. Always willing to serve, always cheerful, and always appreciating life to its utmost, the good wishes of his classmates are extended to John Malcolm.

"Il'hat's the argument."

To Shuen Sun
Auhui, China
"Sun."

Met.E.M. Vice-President and Treasurer Chinese Students' Club (3, 4).

Sun came here from China in 1915 and the at Horough preparation at Tsing Hua College, Peking. First he wanted to learn how to make glass, so he joined the Chemical engineering course. But the H2.S offended him so, that he finally changed to metallurgy and mining. Just to show that he has a little ability he is going to take degrees in both courses this year.

Besides what he learned under the faculty, he acquired the knowledge of love-making from his friends in Taylor Hall. He thought a little American music would attract the Chinese ladies, so he started to learn to play the mandolin. He has proceeded with great rapidity and we hope that he will make a hit with his music when he gets back in China. Sun was a good worker as well as a good fellow. He has formed one bad habit and that is eating ice cream. Well, we all like it.

"Let us have some pineapple sundae."

Charles Hoyt Tomkinson Plainfield, N. J.

"Tommy."

M.E. Arcadia (4), Mathematics Honors (2), Class Secretary (3), Drown Hall House Committee (4), Class Day Committee, M.E. Society, Cotillion, Cyanide, Kappa Sigma, Tau Beta Pi.

Tommy says he was born in Erie, Pa., but the folks did not like the climate so they moved east to the locality made famous by summer vacation hunters and mosquitoes. After finishing high school, he followed his father's footsteps and came to Lehigh. It appears that he has been following the same steps ever since (Tau Beta Pi runs in the family).

He has other valuable qualities. We know he gets away big with the ladies and find that he is a staunch pillar for all promotors of dances.

For sometime last year he was engaged in aeroplane construction. He returned in time, however, to "fool 'em all" so we can safely predict a successful future. Cood luck, Tommy!

"Let's get something done to-day."

Charles N. W. Tomlinson Aurora, III.

"Tommy."

E.M. Class Football (1), Football Squad (1, 2, 3), Varsity Football (4), Lacrosse (4), Athletic Representative (4), Senior Banquet Committee, Class Book Committee, Arcadia, Cotilion, Sword and Crescent, Delta Upsilon.

Young Lochinvar had nothing on this man, who also "came out of the West" and proved to be as good a ladies man as the knight in the poem. It would invite lockjaw to attempt to say his full name in one breath, and with three "first names" to choose from, his official appelation is "Tommy," a name which appeals to all his feminine friends.

"Tommy" struck Bethlehem like a cyclone and is still going strong. Upon graduation he expects to engineer that "hill to hill" tunnel which is to replace the expensive bridge project. His last year has been just one darn committee meeting after another but he still found time to get a crack at Lafayette.

"You're a swell guy."

Hsiung Tsai Chekiang, China.

E.M. Freshman Mathematics, First Prize (1), Wilbur Scholarship (2), Sophomore Physics, First Honors, Manager of Chinese Students' Club (2), Junior Oratorical Contest, First Prize (3), Tennis Squad (3), Junior Mining and Geological Society (4) Assistant Editor of the Chinese Students' Quarterly (4), Treasurer of the Eastern Section of the Chinese Students' Alliance in U. S. (4), Phi Beta Kappa.

Tsal, pronounced like the word expressing grief (with a stutter), hails from the vicinity of Shanghai. He was always on top or near there in classwork, and received his preparation towards mental development by learning the Chinese language. When the Chinese government sent him here to learn how to operate Chinese mines he spent a year at Andover before coming to Lehigh.

Tsai also participated in athletics and devoted his energy to tennis and soccer.

Tsai was well liked by all who knew him even including his classmates who firmly believed that he was making the course harder for them.

"Calculation is of."

Yin Lian Tseng
Blinjoe, Dutch East Indies.
"Kway Woe."

E.M. Secretary Chinese Students' Club (4).

If you can pronounce that nickname right, you win. Any way his last name is easier to say and so we will call him that. Tseng was born and raised in the Dutch East Indies but does not speak a single word of Dutch. He has been trying in the Lehigh Valley to acquire a mastery of that language. Tseng attended the Chinese grade school in Blinjoe, and then went to Shanghai for his high school education. He came to the United States in 1915 and for two years he was unable to cross the Rockies, being held by the Colorado School of Mines.

We have known him for two years and it has been a pleasure to watch him become as loyal a Lehigh man as ever crossed the campus. He is a lover of nature and the wilderness and the life of a mining engineer will give him a chance to be closely in touch with nature. Always willing to help and cheer he will be remembered as a "good fellow" even after he gets back to his beloved island and wins success.

"Cut that out."

Harold Rodman Walters
Bethlehem, Pa.

"Hally" "H'alt"

B.A. Brown and White (1, 2, 3, 4), Assistant Editor (3), Head Cheer Leader (4), Y. M. C. A. Cabinet (4), Drown Hall House Committee, Arcadia, Wrestling Squad, Arts and Science Club.

"Hal" crosses the New Street Bridge in order to get to college, you have guessed it, he lives on the North Side. He claims Brooklyn as his birthplace, we are sure it would not claim him. For four years he has served faithfully on the college newspaper, he has gotten the programme of the chapel music without a murmur during all his period of servitude. Not being sure that the Glee Club would run this year, and wanting to use his voice, he became head cheer-leader.

He has not confided to us what he is going to do after he leaves college. From the course he is taking he might be a preacher but he hardly seems fitted for that position. No matter what he does he will accomplish it in tip top way and with a smile on his face.

" Now, wouldn't that jar you?"

Samuel Hancock Webb Brooklyn, N. Y.

" Hinkus "

M.E. Varsity Football (4), Kappa Beta Phi, Theta Xi.

Samuel Hancock has had a varied career when it comes to getting an education. He went thru the public schools of Brooklyn, then the Boys' High School for three years, Erasmus Hall for a year, and wound up with a pleasant little stay at Stevens Institute for two years before coming to Lehigh. The class gained a valuable addition when "Hinkus" cast his lot with it. He has been one of the prime movers in slowing up the work required in the Mechanical Department. We admit that every class in that course does less than the preceding one but no class decreased it so much as the one aided by the gentleman above.

Mealey's will miss "Sam" when he leaves this vicinity as he has a regular hook on which to hang his hat and no one may preempt it. He is ever smiling and always an optimist, so his friends are the college. May you ever be remembered as one of us.

"It's like this, Professor: I'm sorry, but-"

William Whigham, Jr.
Pittsburgh, Pa.

"Bill"

M.E. Class President (2), Class Football (1, 2), Mustard and Cheese (1), Arcadia (2), Scimitar, Cotillion, Sigma Chi.

"Bill" was born in the smoky city, but migrated to North Carolina in order to get the proper preparation for Lehigh. He made quite a hit in his first year as a member of the chorus in the Spring show, and there is no doubt that if he had continued in college that he would have been one of the mainstays of the Mustard and Cheese.

In 1917, April, "Bill" got into service the enlisted in the U.S. N. R. F. and for nearly a year served on a patrol boat about Philadelphia and Cape May. Then he was transferred to the Naval Reserve Flying Corp and trained at M. I. T., Bay Shore, L. L., and Pensacola, Fla. He was commissioned late last year. But the war is over and "Bill" is no longer in service. He has returned to his native heath and is showing the people how to make coke.

"Can you beat it."

Edward Foote Whitney Sherburne, N. Y.

"Porky."

M.E. Arcadia (3, 4), Glee Club, Junior Prom Committee, M. E. Society, Cotillion, Chi Psi.

Our distinguished hero, for they all start that way, was born in Sherburne, N. Y., which is somewhere in the vicinity of Utica. For some unknown reason he decided to become an engineer and after perusing the World's Almanac he selected Lehigh as the ideal college. In order to enter Lehigh with the least possible exer-tion, "Porky" spent a year at Colgate learning his A, B, C's. It must have been a good hunch for no one has ever seen Edward expending any energy since he has been here.

During the S. A. T. C. he was one of those supply sergeants who ran a secondhand clothing store. He always had a complete line of everything that one had and nothing that one didn't have. Even tho he was afflicted in those trying times, Porky has recovered and is hoping that soon he will take his place among the men who startle the world with their mechanical genius.

" Nevah mind now."

John Henry Widmyer Lancaster, Pa.

"H'id."

B.S. in Chemistry, Burr Board (2).

John Henry did not change the local atmosphere to which he was accustomed when he came to Lehigh in the Fall of '15. He had been used to the manners of the local townspeople for nearly two decades and barring the fact that he was not with his immediate family Wid did not notice any difference in South Bethlehem. For nearly three years he grew in strength and wisdom but could not resist the call to arms and left us in December of 1917. The radio branch of the Navy appealed to him and he has been in it ever since doing valuable work for the government.

Quiet and unassuming he went among us and it was only with the greatest difficulty that one got to know him for his true worth. He was always ready to help and many of his classmates will testify to his loyalty. What Fate intends to do with him we would not venture to say, but if it is not a successful career, Wid will take things in his own hands and make it so.

"There's no sense to that."

Robert A. Wilbur, Jr.
Elmira, N. J.
"Bob"

Mandolin Club (1, 2), Leader

(2), Art Editor Epitome, Arcadia (3), (otillion, Kappa Alpha.

"Bob" comes from the penetentiary town in New York and has been kicking around on this earth since May, 1897. He managed to escape when he heard that a good bunch of fellows were going to enter Lehigh in 1915. After joining us he soon became acquainted with the various things necessary for a successful college career. He was missed at the beginning of his last year and inquiry brought forth that he was among those flying seaplanes. He has the qualities of a bull dog and sticks to anything he starts, so he will be back next year to finish his course.

His looks were never against him and he soon conquered all the girls in Bethlehem as well as Allentown. We won't say anything about other places. He used to take his mandolin and when he started to play he could not be resisted, so his conquests were easy. Here's success to you, "Bob" and may your conquests in after years be a easy as at college.

"Oh, is that so?"

Bradford Willard Plainfield, N. J.

"Brad" "Jess"

B.S. in Geology, Deutcher Verein.

Willard happened to land in college about the time that the puglist by that name was gaining national prominence. His classmates feeling that he should have a nickname promptly bestowed that of "Jess". Our hero was born in New York City but claims Plainfield as his home town. Jess did not think that the world was very rough and he sailed thru college on an even keel never disturbed by those small storms which some call finals.

For two years he lived happily in our midst and then he got into the war game. He was at Camp Dix for awhile and then went down South to get in a French-speaking regiment. He sailed shortly after joining this regiment and has given a good account of himself on the other side of the pond. There will always be a warm spot in our hearts for this man who was always kind, generous and willing to help one in trouble.

"Il faut."

Walter Ray Woolley Asbury Park, N. J.

"Squirt." "H'alt."

El.Met. Lacrosse (3, 4), Arcadia, Senior Classbook Committee, Treasurer Metallurgical Society, Alpha Chi Rho, Tau Beta Pi.

It remained for Ocean Grove to prove that summer resorts function in the winter time as well as during the summer. It is this sand-blasted, wave-washed, mosquiton fested town that claims "Walt" as a native. But not wanting to live in a desert he moved across the Lake into Asbury Park. He had a good start before starting out in this cruel world. About four years ago Walt drifted to Lehigh, and although unable to see over the chapel seats on opening day, and being compelled to climb on a chair to turn on the light in his room, and failing to reach Thory's blackboards by an inch, he picked out one of the hardest courses in college and has absorbed it with ease. Walt has not allowed studies to interfere with his college education and has always been found where the fun was the thickest. This "Big" small man has made a host of friends who do not wish him successthey expect it of him.

"'Ay guy, I don't know, but I will tell you."

Theodore Cyril Zeller McKeesport, Pa.

"Doc."

B.A. Class Historian (4), Assistant Manager Lacrosse (3), Manager (4), Chairman Drown Hall House Committee, Chairman Class Day Comnittee, Treasurer Arcadia (4), Cotillion, Cyanide, Sword and Crescent, Chi Phi, Phi Beta Kappa.

"Doc" comes from the western part of the state and claims to be one of the youngest of the class as he did not arrive on this earth until the latter part of 1898. That has not been any detriment because "Doc" has always been one of the most active members of the class. He is one of these rare persons who always has time to do what you want him to do even if he is busy. He may study occasionally but no one has ever caught him in the act. He is always ready to make up a party for bridge, Mealey's or the movies. Nevertheless, he got one of those keys which are the envy of many a man. "Doe" is going to follow the footsteps of his father and become a doctor. He will always have the confidence of his classmates should he ever try to work on them.

"Wait till I finish this letter."

You seemed so young, to know So little, those few months or years ago Who may by now have disentwined The inmost secrets of the Eternal Mind. Yours seemed an easy part, To construe, learn some trivial lines by heart; Yet to your hands has God assigned The burden of the sorrows of mankind.

You passed the brief school year In expectation of some long career, Then yielded up all years to find That long career that none can leave behind.

-Guy Kendall.

WALTER WILLIAMS HARRIS

Born June 19, 1895, at Scranton, Pa. Prepared for Lehigh at Central High School, Scranton, Pa. Enlisted January, 1918, in the Ordnance Department. Died in France, February 28, 1919, of Spinal Meningitis. He was a student in the Business Administration course and a member of Delta Upsilon.

CHARLES MONIE

Born January 9, 1896, at Moosic, Pa. Prepared for Lehigh at the Technical High School, Scranton, Pa., and entered in the Mining Engineering course. Enlisted, September 19, 1917, and was a sergeant in Co. A, 341th Machine Gun Battalion, 79th Division. He died November 3, 1918, from wounds received in action on the same day.

JOHN READING SCHLEY

Born October 12, 1894, at Frederick, Md. He prepared for Lehigh at Mercersburg Academy. Enlisted April 12, 1917, in the Naval Reserve and was transferred in August of that year to the Aviation section of the Signal Corps. He became a First Lieutenant in Aviation and was killed in an accident in France, October 22, 1918. He was a student in the Metallurgical Engineering course and a member of Signa Phi.

JACOB MANTON SHIMER

Born September 21, 1890, at South Bethlehem, Pa. He was a graduate of the Bethlehem Preparatory School. Enlisted in the Pennsylvania National Guard, October 13, 1913. He received a commission as Second Lieutenant in France and was killed in action, October 27, 1918. He was a member of the Mechanical Engineering course.

OPINIONS

When the plans for the Class Book were being discussed the Committee thought that in view of the fact that the Class had spent four years in a strange land, and tho they have not acquired the customs or babits (either good or had) of the inhabitants, it was in a fitting position to express some ideas concerning the neighborhood. Thus the opinions were added to the class ballot and we awaited the results. But when we saw that page of finely written comment on each ballot we nearly passed out. It was only with a great effort and by the aid of stimuli both internal and external that we started to classify and arrange the replies in a readable fashion.

Some of the members of the Class are either virtuous or else they are afraid of exposing some secret because they did not answer all of the questions. Some took the questions seriously and really some valuable suggestions were given; others treated the matter in a frivolous vein and the answers are funny; some replies we dare not put in print, so you will find a curious combination in the opinions of the Class. However, all of the answers show that every man is for Lehigh every minute and that the spirit of help and cooperation will be carried out in after life which has been characteristic of the four years we have spent in South Bethlehem.

OH PERCIVAL, HOW COULD YOU?

ever bring yourself to the point of kissing a girl for the first time in your short life. The stories that are told cause us to believe that the boys were rash in some cases while in others they were forced into it. Cardin says that he did it with his eyes closed while Nicholas was o excited that he cannot remember how he dil it. Bevier was peeved that such a question was asked because he answers that he did it like any other damn fool, and Rosenmiller says it is nobody's business. Baunan did it at her front door and Doan did it to the best of his ability. Anick never did do it; the girl kissed him before he got a chance. We were impressed by Gardiner's answer as he said "chemically speaking, by the contact process." Wilbur did it by proxy, using a letter, while DeVout says there is only one way to kiss any girl. Pengelly shifts the responsibility to Adam and Hartney had the experience so long ago that he has no knowledge of it.

AND WHAT OF THE FUTURE.

A good many of the Class claim that they are going to work but in some cases there is a question mark after the word and so it is hardly possible to take any of these replies seriously. Lawrence differentiates the question by saying that he will get a position or maybe a job. There must be a difference in his mind. Tseng is going to work in Hell to increase the comfort of others; it would be hell to work in some places that need not be mentioned here. Macdonald says it is hard to decide and Tomkinson and Melville both claim that someone knows but they are unable to find out. Schrader can't even imagine what is in store for him, and Keim has not yet reached the point where the future carries any weight. Walters is going after a fortune in Mexico and Bull is incapable of action. Stevens is a second Diogenes, he is in quest of something honest. Sourber will probably worry gullible adolescents and Brockman expects to get married or something equally as bad.

EVERYTHING

needs reforming in College. If the suggestions offered were carried out the Class would not recognize Lehigh University when it came back on a visit. To be specific the faculty needs reforming and it needs it badly. That is a point which is unanimously decided by the class. The attitude of the faculty needs reforming according to Whitney and then several suggest that the heads of the departments are in need of repairs. The Arcadia is mentioned and the representation on that body. The Honor System also comes in for a great deal of criticism. Heilman thinks the hazing system should be changed and Webb wants action on the majority of the Freshman class. McKinley being always an advocate of the Liberal Arts course wants the opinion of the college changed concerning his course. Rowand is of the firm opinion that the Bursar's office is in dire need of repairs and Anick wants the King bolstered up. Reed does not want any Quaker meetings; we don't know what he means, do you? "The line of bull" is being spread too thin according to Cofin. All the departments are attacked, with the Mechanical, the Electrical and the Math leading in the race.

MAKE IT EASIER.

There is too much work in the Senior year, is what Manley would do the Business course. That the courses in college could be improved is without question and this is the way it should be done. The Mechanicals want to revise their whole course and get a new leader. As Tomkinson says, "bring it up to the Twentieth Century." The Mets are fairly well satisfied with the course, as are the Miners. Geis wants to leave it to Skipper and Tomlinson desires more business subjects. The Electricals are disgusted and Reid thinks Lafayette deserves the course, while Petrik wants to get rid of the electricity. The Civils want a decided change. Rigg wants more trips but Spillman does not want to spoil the course for the fellows who are taking it. The Chemical course is shot to pieces by the changes. Ginder only hopes that the inspection trips are retained. The Arts men have a few suggestions to offer. Zeller could do better work in Drown Hall than in Coppee while Brockman wants girls admitted to the course.

VERY FEW

have any use for the filthy lucre and most of the Class wants to get rid of it as fast as they get it. Walters would like to buy the college so that be could run it. Hiller can see no better use for it than to invest for flowers, chocolates and cabs for Frosh. Smith would spare fifteen cents to buy Lambert a shave and Nawrath would install a pipe line from the municipal brewery to the dorms. Knubel wants to know what money is. O'Neill whispers something about July 1st, 1919, but we do not quite understand what he means. Pengelly would found an endowment to do away with chapel. Coffin being a pushing business man would buy shares in the Commons. It ought to be a good investment. Woofley would put an uncharted "bar" in the Lehigh and Whitney would buy a Ford. Hunt wants to get married and then sleep for the rest of his life. However, if he fulfills his first desire we doubt his ability to do the second part. No one, mark you, no one would save it.

I HAVE HIM ON THE HIP

and when I am thru he will wish that he had never crossed my trail. The tortures and trials to which we would put our enemy can hardly be imagined. Lloyd when asked what he would do with his enemy said, "I did it." Rowand would make him listen to Ashbaugh and Dorkin would appoint him orderly to the ex-Kaiser. Brockman must have some Indian strain as he would hang the person by his thumbs and throw N114011 on his eyes, the Haussman would only hit him as he would he Runt. Ginder is cruel, because he thinks that if a man is kept away from liquor on the right of Jun 30th nothing more could be asked. Tsai can think of nothing better than making his enemy love him. A good many enemies would be sent to Lafayette, others would be given a ticket to the Commons, while some would have to listen to Dec Ulmann for a day and a night.

1 WOULD RATHER BE

myself than any other person, is the opinion of a great many of the boys. It certainly is nice to be so satisfied with one's self, but there are some who have a longing to change their character. Manley wants to be a man; he's only got a little while to wait and maybe—. Kirk thinks an artist with undeveloped "talent" would suit him better than his present status. Hartney wants to be himself with a few additions and subtractions. Duck is envious of Bill Hart and Hesselsehwert of an M.D. Tomlinson wants to apply for the janitor's position at Bishopthorpe and Woolley chooses a position as wrestling coach at the school across the river. Lander thinks the job of class treasurer or business manager of the Epitome would be attractive. Plug Richards and Charlie Schwab come in for a lot of admiration but we see no hopes of any of the dreams being realized.

THERE WERE SEVERAL HONEST MEN

in the Class who admitted that they had fallen into the habit of loafing occasionally at some particular place with a few well chosen cronies. Gerber has the nerve to say that he is not guilty but a chemist cannot get away with that kind of stuff. Nawrath likes the roof of the Chemistry building but Shipherd prefers a class. Jobst has a habit of going to the movies and loafing, that must come from living in Emaus. Melville is dependent upon how much money he has to settle the question. Bevier has a place reserved on the radiator in Coppee Hall which he retires to between classes. Sefing says "when two are gathered together there is company." If he is one of the two he loafs. Drown Hall and Bill Hall are favorite places and the only other place that might be used is Jake's.

NOW, IF WE COULD ONLY GET RID OF

a few things around college, life would be much more pleasant and we would enjoy going to college. As it is there are several things which rudely interrupt the peaceful course of our existence in South Bethlehem. Walters, being a practical man, wants to get rid of expenses, and Ginder wants all books destroyed. Rigg is impartial, as the absence of a few professors and all studies would make him happy. Ganter hopes that Runt Charles will be removed in the near future and Johnson believes that there are too many figureheads around the campus. Welb has no use for the second term, Senior year, and Lauder has been scared by the steps on Saturday night. Met problems, gym, exams, studies, first hours and the faculty are also other causes which have wrecked the happiness of the class. Sourber wants to get rid of the Frosh who persists in telling one his detailed life's history, and we all agree.

WHAT A CHANGE

there is in the favorite beverage from that of yesteryear. The reason for this change is not evident, whether the morals of the class are better or a new influence has crept into our midst we cannot say. So kind reader judge for yourse.f. McKinley likes a Blue Moor; Hiller, S. A. T. C. coffee; Baumann, gin rickey; and Shipherd's is made in "Boston." A Crown Prince is the only thing which will tickle Carr's throat and Iobst takes bay rum on the side. Geis does not commit himself but says that it is good and expensive. Korves will take coca-cola after July 1st. Stevens is getting in practice for the dry spell by drinking Bevo. Reed has developed a liking for a "Teddy" with a French mademoiselle on his knee. That ends the variety of drinks. The remainder of the class vote for either water or milk, and they are not babies either.

EVERY LITTLE MOVEMENT

has a meaning of its own, that is just the name of a song which is liked by one of the class and not what you think at all. Brockman goes into a trance when any one hums Just You. Haussman likes that old ditty of, Oh, How I Hate to Get Up in the Morning, for an 8 o'clock class, and his choice is sustained by more than one person. Keim is anxious to know where he is going after he leaves here, and Gardiner likes the philosophy in the song. Take Life and Love as You Find Them. Rigg likes Sing Me to Sleep and Johnson pleads to be "Kissed Again." Woolley takes delight in singing You Sneaked Away but I'll Find Out Where You. Are At, we are in doubt as to whom he means. Lloyd thinks Another Little Drink Won't Do Us Any Harm can be sung with great feeling. But if we were to tell you all the songs which are favorites you would think we were barking for a music house. Home Sweet Home, and How I Hate to Get Up in the Morning were chosen by about a dozen people as their favorite.

WE ARE INTERESTED

in many different things, but Football, Baseball, Tennis, Lacrosse, Basketball and Wrestling (both kinds) are spoken of when the subject of interest is sports. Haussman adds pinochle and poker to the list and Ginder, throwing the bull. Smith barks back to the days when he was in the S. A. T. C. and says "double-timing the company around the parade ground from a point in the middle. lobst has intensified wrestling, but we don't think that it is usually called by that name. Macdonald finds great sport in jumping dominoes; that must be a strenuous game. Woolley is the left tiddle on the tiddleywinks team and gets away with it in fine shape; he is built just right for the position.

GONE, BUT NOT FORGOTTEN

And we hear that it is again to burst forth into print. The Burr will always be with us, tho some may only have faint recollections of it. Gerber, who is a Burr enthusiast says, "Wait till it gets going" and Widmyer who used to be on the Board thinks that a few jokes would improve it. lobust adds, only a shell; we wonder if all the nut has been eaten. Johnson thinks that it is worse than the Easton Journal; he must read both. Spillman says wisely that it is a more or less successful mirror of the finnity side—mostly less. "Degenerating" is all that "Tsai can say, whether he means to himself, or that the paper is, we cannot say.

LET US SPEAK ONLY KINDLY

of the dead, but if you could read the various opinions of the Class you would think that the S. A. T. C. was a hideous monster which was stretching its evil hand over the entire world. A concise version of the affair is that of Lawrence, 5:50 a. m. Cardin thinks that it was a big failure, but the Committee thinks that it was more than that. Rowand says "it might have been some good if it had had some officers"—what do you mean officers? "A mad house" is the way Skillman characterizes it, and Amick says, "What's the use, this will be censored." Webb believes that it was an inducement for a bunch of pikers to come to college. It was an easy way to get sixty bucks according to Whitney and Woolley says "let Bolshevism reign unrefined." The above statements are the mildest which the Committee can find; many opinions are withheld owing to the fact that the words of the English language failed to express the sentiment of many concerning this infliction. Howard sums up the situation by saying that it was the biggest farce the government pulled.

ALL ROADS

lead to Allentown and it affords a place of refuge and amusement for all of the Class. Like all cities which are progressing it has its pitfalls and some of the Class think that it should be avoided. Kirk thinks that it is the most immoral city in Pennsylvania and the few "nice" girls usually spoiled by too much attention. Whigham says "a place of memories of Saturday nights, perhaps not too well spent, but all in a lifetime, nevertheless. "The magnet that draws the boys to Lehigh and the scythe that mows a lot of them down," is contributed by Stevens, while Red Smith thinks that it is a byely example of Pennsylvania Dutch architecture and life. He must have moved in some family circle over there. Jimmic Sourber says "the only place of its size with a 'rep' from New York to San Francisco." It reminds Reed of the Germans across the line—Kamerad. Coffin thinks that it is wore than its reputation and Bull says "it is not near enough." Carr likes the place but adds that the cops sure do fine you. He must have been pulled by them. But Allentown cannot be so bad because, as Rigg-says, "it is closed at 12:10 nightly."

OH WHERE, OH WHERE, HAS

our little cop gone, oh where, oh where can he be? That is a question which has puzzled the Class for four years. One of the big mysteries of our college career is where all the cops came from which were in the parade welcoming the returned soldiers. Baumann says "the isn't a bad fellow at all," yet Shipherd never saw one. Petrik however saw one on the campus one day. Hiller wants to know if the question the committee asked concerning the cops should be taken the same as the celitorial "we." But as Reid says "they or he is peaceable when askeep—in fact, peaceable all the time."

YOUNG BUT NICE

is what Geis thinks of Bishopthorpe but we have a strong feeling that he means the girls and not the school. In fact a good many of the fellows thought that he meant the girls when we asked this question, therefore you will have to determine in your own mind whether the opinion is about the school or the girls. Tomkinson says "they look nice when they are far away." Keim thinks that it is a loveable place and should be moved to the campus. Hesselschwert believes that it is a good place for girls to learn how to dance and loaf. Knubel says "it used to furnish the Sunday morning parade." Sefing never hung around the place so he does not know anything of it. O'Neill has had trouble with the "General" otherwise it is a pretty good place, and Ginder thinks that it would be better if they were taught to cook.

HARD TO GET IN

is a general opinion concerning Fem-Sem. In a good many cases the opinion of this place for the enlightenment of young ladies is the same as that for Bishopthorpe. However, the case warrants separate treatment. Coffin says it is a good jail, whether he tried to get out or get in we don't know. Tomlinson thinks that they should change it back into a hospital and Lauder would like to see more of it. Amick quotes "The Forbidden City" and Johnson adds that it is the goal of all Parades. Tsai likes to look at them but we are wondering where he saw them. Walters propounds the question, "why not loan them a fraternity house on the campus?" Wilbur thinks that it is a large brick edifice with one or two windows, and Zeller comes back with that old one about distance lending enchantment to the view.

DOWN THE RIVER

there is a place called Lafayette. The mention of this place always brings forth a storm of derision from a Lehigh man and the members of the Class of 1919 are no exception. The Committee has yet to find a favorable comment on this place. Whitney opens the attack by calling the attendants a bunch of quitters, and he is ably seconded by Mertz who thinks they are dead. Sun certainly has learned to swear since coming to this country because he calls it a hell of a place. Some stringly has learned to swear since coming to this country because he calls it a hell of a place. Some short epithets are "pretty low," by Hunt, "good co-ed" by Skillman, "worser nor the worst" by Duck and "Black Hole of Cafcutta" by Coombes. Manley wants them to get a wrestling team and then watch the Lehigh-Lafayette meet. Wouldn't that be a joyful hour. Petrik is grateful that it exists in order to furnish us amusement. Baumann recommends it as a seminary and Reid says it is good preparation for Rittersville. Schrader would not mind dying there, but that is all.

GOOD FOR THE COUNTRY, BUT TOUGH ON THE FELLOWS

is Lawrence's opinion on the prohibition movement. Several of the class think that it is the best thing that can be done while others do not like to be deprived of the little nip. Bevier thinks it is a good thing and then asks us what will "Allentown do. It will be funny to see the last car after the act is in operation. Melville hopes it never comes and Macdonald just says "no." Schrader thinks that the fellow that started it should be where many want the Kaiser to be. Keim says it won't bother him and Kirk reminds us that he was in the Navy. McKinley would like to see beer and wine remain and Smith knows that the personnel of the long-established tank corps will be completely demoralized. Stevens gets some consolation out of the fact that the Class will graduate while the country is still wet. Can you beat this? Sourber, "'the dictionary isn't big enough to start with" and Howar I, "great stuff." Tis an awful blow to Ganter and Reed makes us envious by saying that there is no such thing in France. Anyway we have to put up with it.

NONE BETTER

was the decision reached by the majority, concerning the merits of the Class. They all say it is good. Sourber remarks that it is rather down at the heels but still there with a kick in both mitts. The kick is pretty strong, too. Nawrath says it is the best bunch in the world until the faculty got to know them. Laying all joking aside, there is no doubt that in everyone's opinion it is a good class.

The odor of the sewer seems to hang about the remaining classes of the University. Heilman

The odor of the sewer seems to hang about the remaining classes of the University. Heilman says they are rotten, they were never hazed. That is certainly a big blot on their reputation. Rosenmiller thinks that they get worse each year. Shipherd gives them a little leeway because he thinks that where there is life there is hope. In time they may grow up and become a class.

HE IS A GOOD MAN

was the nearly unanimous answer concerning the course Professors. Melville thinks that as a Professor he would make a good shipbuilder. Tomkinson says the head of the M. E. Department is a trifle absent-minded. The question fooled some of the boys because Ginder said: "What do you mean, professor?" The question is hardly fair as the "dips" have not yet been handed out and perhaps a true opinion cannot be expressed.

A BUILDING ON THE CAMPUS

is called the Commons, according to Tomkinson. Pengelly says it is no place for a hungry man, so it evidently is a place where food is served. No one in the class seemed to have a very clear idea of its use. Nawrath declares that it is a place run to provide employment for the "King" and Whitney adds that it is the worst swindle in college. Evidently he did not get enough graft while a sergeant. Tsai was moved to the use of strong language because he says "a hell of a place, lately." Manley was the only one who has a good word for the evil as he says "it is cheap enough," tho Doan thinks it is better than that of Lafavette.

WHAT IS IT?

is asked by more than one person when asked about the Areadia. Several valuable suggestions are made concerning it. Many think that it should be reorganized. Bevier wants of give it power to enforce its decisions. Keim wants it to be more representative. Haussman says it is a poor mask for Faculty rules. Shipherd says it is better as it used to be while Gardiner thinks it is useless. Wilbur says it is a canary—always caged up.

What the Class Don't KNOW about Mealey's and the Colosseum would require very little space in this book. Tolbst says Mealey's is the next stop after the Allen, therefore it is easily located, and Nicholas claims that the Colly is convenient when one hasn't the carfare to go to Allentown. The Colly must be in South Bethlehem. Amick adds there is no place like home; well—he knows

Colly must be in South Bethlehem. Amick adds there is no place like home; well—be knows. The Colly is equally divided between being a vaudeville show and a wrestling match, but it is all over. There won't be any fun watching a loom work in the place. Mealey's will have better patronage next year but the boys of 1919 will be missed.

SUCCESSFUL! ROTTEN! UNSUCCESSFUL! FINE!

That is the kind of a time one has at the College Dances, according to Dorkrin. Tomlinson thinks that it is a good feeding ground for stags. If two term hours credit were given for regular attendance, Spillman would take them in.—Stevens never goes to one alone, he always has a friend somewhere about him.—Shirk says some are all right and that is about the size of it.

WHY THE CLASS GREW SMALLER,

After a careful survey of the statistics, it can be announced that 83 per cent, of the class think the reason is Thornburg. Many minor reasons were added but the man behind the scenes was the dominating feature. Women and Allentown come in for a share of the blume in removing some of our beloved classmates. Tseng remarks that some of them finish their course. Now that is a thought. Walters believes that they are not appreciated by the faculty. Gerber says, "I'll bite," and Smitty chirps, "Who knows? Who knows? Who knows?"

THE GOAL OF AMBITION

has been reached by many but there are several who are still struggling to reach the pinnacle. Nicholas is proud that he has been able to bluff as much as he has and get away with it. Rosenniller wanted to get Van Alta, perhaps that was ambition has subsided since he left. Rick Reid would die happy if he were as clever as Knebleman thinks he is. Walters would like to print one of Ullmann's lectures word for word. It sure would be a contribution to science. Mike Lawrence hopes to attend chapel five days in one week and Coffin had nearly as high an ideal in reforming the women. Nawrath thinks that when he knows enough Chemistry to calculate the percentage purity of Bethlehem, he need no longer fear the world. Sourber, however, capped the climax when he remarked that some day he hoped to be able to heave a line like Cranmer. Here's hope, boys, that some day you may succeed.

BUT, OH, WHAT GLORY

has not been borne home by the boys of the Class. Heilman starts by avoiding Baldy and Geis adds graduation. Buckie MacConald feels proud of the 78 to 0 score against Lafayette, so do we. Schrader considers passing American Litt. the second year after flunking it the first his greatest endeavour, while Tomkinson helped reduce the work in Senior Machine Design to one plate a term. Ginder attended four Met bettures in one week sometime ago, while Sefing believes "getting out" equals anyone's record and Amick adds neckly an "A" in Chapel. Graduation, the successful weathering of Met. Problems, Integral and Economics all come in for a share in the distribution of achievements, but Walters is at the head of the list when he says that he once got an article of real "news" value from Dr. Emery.

AT THE BOTTOM OF THE DEEP BLUE SEA

is the point on the scale to which some have fallen in the things which they have done in four years. Cardin is very nild as he has only stayed out all night, but Rosenmiller attended chapel for two years straight. McKinley never worked hard enough, Shirk admits attending a Y. M. C. A. meeting, and Zeller led one. Snork sunk to the lowest depths when he swiped money from milk bottles to get home from Allentown one morning. Manley says "who wants to know?" while Doan adds "that is a secret." A good many of the boys were afraid to have their sins revealed and refused to confide in the Committee, while Howard evades and says "nothing very bad."

FINE! ROTTEN! BUM! O. K.!

is heard as soon as The Brown and White is mentioned. With that discord in the meeting it requires a careful study to really obtain the true sentiment concerning the sheet. Lawrence says "ask the 'King,'" but that is only appreciated by a few, if you want a good story ask Mike about it. Duck thinks it is pretty good considering—but we don't know what he is considering. Many of the boys believe it has good advertising and Coffin, a former business manager agrees with them. Gardiner says: "it is a good paper for some purposes," but as paper is used in many ways it is hard to tell which way Joe has used it. Popular opinion seems to demonstrate, however, that the paper is on a par with the average college newspaper and in some cases is made better. Anyway it is of some service to college.

Class Statistics

Name	Age	Height	Weight	Name	Age	Height	Weight

Conclusion

HE TASK of compiling the record of the Class has been a pleasant one. Thru the support of many of the men not in College the history has been made more complete. We are not sure that there are no mistakes, perhaps someone's feelings have been hurt, but if in later years, you, classmates, can

look at this volume covered with the dust of forgotten years, and remember the former playmates of life, we shall feel repaid. We have neither given nor received graft in the publication of this book.

K. M. Bevier,

A. W. DeVout

I. L. Rosenmiller

C. N. W. Tomlinson

W. R. Woolley

R. W. Ludlow, Chairman.

Historian dares not overlook.

BACK in the ninetics when the freshmen attended daily cheering practice for the coming Intercollegiate Chess Tournament and the only thing that could get a Sophomore's mind off Calculus after 7:30 P. M., was the latest dope on 16-1 silver, it was the custom for class Historians to write histories. The movies, Bob Young's, and Mealey's changed all this and now the budding Historian finds that precedent dictates a smooth flow of language which will cover the allotted space but need not say anything definite about the class in question except, perhaps, a few statements to the effect that it was the largest and best class, etc.; something which everyone knows to be a lie, and hence gives no historical information.

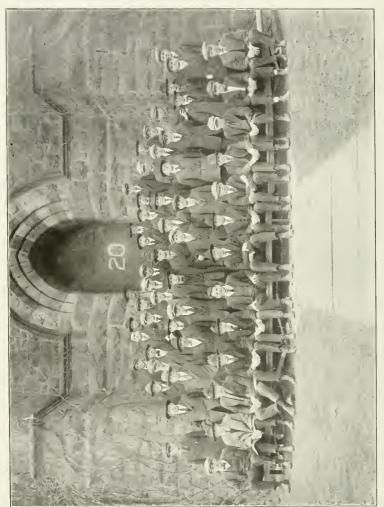

The present year, and the Class to which this history belongs constitute exceptions to what has been said above. These exceptions your

When before has a class ever faced the prospect of returning for their final and best year to find a drought upon the place and the landscape as dry as the proverbial Sahara? When before has a Class taken from September 15 until July 1 to complete this, the easiest year in the college course? And where do we find a record of a class being paid to go to college for the slight consideration of rising at 6:00 A. M. to the sound of a bugle? These, indeed, are distinctions which no other class may claim for their Junior year. Of far greater moment are those which follow: What other class has sent an amount proportionate to 100 men from an original enrollment of 325 to fight for the principles of Justice and Democracy? And what class, besides 1915, can claim an American Ace all its own?

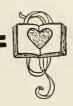

Reared in a time of war, only the fittest survived and those who dropped by the wayside turned from their unsuccessful attack on King Calculus to help in the victory over Kaiser Bill. Thus depleted in numbers, but repaid in quality of material, we launched our Junior Year upon the troubled waters of Septmber, 1918. Impregnable to influenza we were likewise immune to army life and still remained students despite drill, K. P., and reveille. On November 24 we witnessed our third straight victory over Lafayette (no doubt this will be four straight by next December and add to 1920's already long list of distinctions).

With the advent of the real college term in January our growth was remarkable and we welcomed back to our midst many who had laid down the sword to take up the slide-rule. And now, as this biography appears for the inspection of a critical world, we are ready to exchange our books for the lab. reports of Summer School and then to snatch a few breif weeks for hard earned (?) vacation—the last we will see under the supervision of the old man's pocketbook—to be ready for September, 1919. We have done our best—more no man can do.

HOMOR

WE have at last proven our worth in the collegiate world and have moved up to the desirable position of Sophomores, but not, alas, without some casualties. Since that memorable day in September, 1917, when we entered this institution of learning, some of our classmates have left us, a few have made the supreme sacrifice, others have given their time to their country and the rest are either at other colleges or making their start in the world of business. We, as a class, are proud of the record made by our classmates in this great war of wars and this brief history could well be composed of a record of their achievements, but, alas, we have not the space nor the ability to do justice to such a remarkable record.

We often look back with pride on our Freshman record and we remember with glee, how, in the Founder's Day Sports, we won with ease the baseball game and the track event which enabled us to wear our hats home on the 12:10. Then came the Freshman Dance, a great success, if it could be judged by the opinions of the fair sex who were present and

the good time enjoyed by all of us. Following this we recall our first class banquet, one of the best, according to no less a personage than-well, you remembe frwho the speaker was.

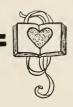

After the Christmas vacation came the Freshman basketball team, which, under the able instruction of Coach Bartlett, turned out to be a howling success and easily defeated most of the teams played during the season. The team wmade many trips and engaged in a number of very interesting games with out-of-town schools and too much credit cannot be given to our manager or our coach.

Upon our arrival this September we found everything changed, and not, may we say, for the better. The college was on a wartime footing and the S. A. T. C. had disrupted college life entirely. We did, however, manage to instill a little respect into the lower class but not enough as subsequent actions proved. The Class of 1922 succeeded in capturing the Founder's Day Sports from us but this in no way lessens our superiority.

Now once again we are on the home stretch and we sincerely hope that our numbers will not be depleted by that old enemy, the Ten Hour rule. May we all manage to get those hours and then we can all return next fall and become Juniors.

FRESHMAN

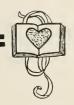

ON September 12th, 1918, the largest Freshman class in the history of Lehigh University was registered. War conditions and the propsect of military training tended to keep everybody so occupied with guessing what was to happen next that before we realized it we were halfway through our first term. During this period there was no chance to organize, as a class, or to show the rest of the college our fighting spirit. With the exception of the Freshman Reception in Drown Hall on the evening of September 13th, there were no social events while the S. A .-T. C. held sway. We were treated in the usual manner on our exit from the Chemistry Building by the rough Sophomores who seemed to take great delight in making us "show the green," play leap-frog, and other childish games and pastimes, but the contempt with which we met their attempts at these boyhood tricks soon discouraged them and they ceased their efforts. On September 28th, the class met in the Gymnasium and under the leadership, or better, management of the Juniors we proceeded to elect our officers. From the 1st of October

until December 8th there were no class distinctions and we were all united under the colors as units of the Army and Navy. You will notice that I refer to December 8th as the day upon which all class distinctions were brought back, and with a vengeance. At that time the trampled pride of the Sophomores could bear no more, so they descended upon us like a whirlwind one cold wintry night and vented their wrath upon us in divers and sundry ways. Two days later we were all demobilized and soon after Christmas vacation was realized. After a long visit home we returned to college and this time set out to make good as a class. A reorganization meeting was held on January 13th and preparations for the Founders' Day sports were begun. As most of our class remember (the Sophomores also, although they wont admit it) we were very successful in these contests. They never even had a look-in. Although we have been handicapped by the unsettled conditions we know that our class is going to stand high in the records of the University before June 1922.

Y. M. C. A. CABINET

Young Men's Christian Association

The great part played by the National Y. M. C. A. in the World War is generally conceded, but it must be remembered that the "Y" Over Here also did its bit." "The branches at the various universities, for instance, accomplished much in the way of raising the morale of the men in the training units.

Flere at Lehigh the war work of the "Y" did not begin at the time of the establishment of the S. A. T. C., but really in 1917, when the U. S. Ambulance Camp was instituted at Allentown. Then, in May, 1918, the Government sent to Lehigh a Vocational Training Section—selective draft men who were to be instructed in technical subjects—and this marked the founding of Camp Coppec. The Lehigh V. M.-C. A. took it upon itself to arrange athletic meets, various other forms of amusement, and social affairs for these men. During the summer, "military hops" were conducted, and at the concerts some of the best local talent was in evidence.

The time when the efforts of the "Y" were most appreciated, however, was when the influenza epidemic was at its height. The men in the S. A. T. C. were confined to the campus under military quarantine, and the Y. M. C. A. room became the clearing house for the mail of the entire camp. Photographic supplies were sold, films taken for development, parcel-post weighed and stamped and countless other provisions made for the convenience of the men. When Drown Hall was requisitioned for an Emergency Hospital, the Y. M. C. A. headquarters were removed to Saucon Hall, where a Victrola, magazines, and writing material were provided. Practically all the work at this period developed upon our Secretary, Mr. Frey, but toward the end of the military regime, the services of an assistant were provided.

The "Y" was also very active in raising the United War Work Fund, and pledges and cash contributions were made by a large percentage of the men at Lehigh. The total approximated \$2,500.

One of the most important accomplishments of the V. M. C. A. has been its carrying on of the Naturalization School, altho the number of students assisting in the work this year is somewhat smaller than usual, and the work itself was of necessity delayed due to war conditions. At this school hundreds of aliens are instructed in History, Civics, English, and other subjects required by them in order to pass the examination for naturalization. Many, also, have been taught to read and write. There are about twenty Lehigh students teaching Night School, and the Naturalization Class alone comprises eighty-five aliens. A large percentage annually secure their Naturalization pipers and the value of this work to America is inestimable.

ARCADIA

The honor system was adopted at Lehigh University in May, 1904, and provided that the Arcadia should be the virtual head and governing body of a committee composed of all the students of the University for the faithful observance of the system. In this capacity the Arcadia acts as an impartial jury to give trial to students reported as having violated the honor pledge.

Besides this power, it is the duty of the Arcadia to foster worthy and advisable activities which help to promote and uphold the good name of Lehigh University and the wellfare of its student body. If necessary it may enforce this principle by causing the exclusion of men who bring discredit to the University.

After lengthy deliberation and consideration and many College Meetings, it was finally decided in April, 1917, to change the system of Representation, so that every living group should have a man on the Arcadia.

In the former Arcadia, the President of the Senior Class was automatically elected and twelve men elected by the College from the following nominations:—Captains and Managers of Football, Baseball, Wrestling, Basketball, Track, and Lacrosse; Editors and Business Managers of the Brown and White, the Burr, and the Epitome; Presidents of Y. M. C. A., Mustard and Cheese, Junior Class and Sophomore Class; Head Cheer Leader, Athletic Representative at Large, Dormitory Chief and six Seniors from the class at large.

The present Arcadia is composed of a Representative from every Fraternity and Dormitory Section, Price Hall, Leonard Hall, and men living in town.

Permission was granted by the Faculty of Lehigh University at its November meeting in the year of 1909 to the Chinese students for the organization of a Club to be known as "The Chinese Students Club of Lehigh University." The objects of the Club are: "To promote closer friendship among the Chinese students of Lehigh University and schools in the vicinity; to interchange knowledge and render mutual assistance to one another, and to labor for the welfare of China as well as for our Alma Mater."

St. Paul's Society in Lehigh University

Officers

J. D. Sourbeer, '19					President

MUSTARD AND CHEESE DRAMATIC CLUB

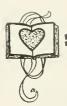

0555

As its thirty-fourth annual production, the Mustard & Cheese Dramatic Club presented "The Million" a comedy in four acts.

Due to the untiring efforts of Mr. George Howell, the performance was a decided success. The cast proved itself worthy of the tribute subsequently paid to it and we sincerely hope that all future productions will live up to the standard set by this one. "The Million" was staged at the Grand Opera House on Saturday, April 13, 1918.

Left Half-back: Savaria, '21 Fullback, Wysocki, '20

COACH TOM KEADY

Keady had a big task when he undeavored to give Lehigh a winning team the past season. Little time was available for practice due to the institution of the S. A. T. C. and other adverse conditions. The team never knew when or where their next game would be, but the fact that they broke even on the season and, what is more, beat Lafayette, ought to be satisfaction to the energetic Coach. "Tom" will be with us next season, so we can expect "some" (ootball team which will deserve the worthy schedule, already prepared for them.

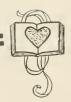

CAPTAIN V. DE WYSOCKI

[6] IC" is one of the biggest and strongest men who ever donned a Lehigh moleskin. Along with this strength is a speed which makes everyone of his end runs and line plunges a spectacle. His ability has been lost to the team frequently by hard luck. In his first year he broke a wrist, his second year he was more fortunate, but again this year came another break, followed by another in basketball, so his right arm will probably look like Harry Sander's stick if he waits long enough. Aside from his ability as a groundgainer he is a tower of strength on defense, being a hard and sure tackle. As Captain of the 1918 team his playing has been an example to the whole team, and his cool and steady head saved it in many a crisis. He is also a basketball and baseball player, so he will probably have enough Varsity L's at the end of his college course to start an alphabet of his own. Being a good student, his services are all the more valuable. He still has another year to spend with us.

"Joe" was elected Assistant Manager of the team last year, making him Manager of the 1919 team. However, the departure of Mr. Heuchel, 1918 Manager, from the University to enter the service left Mr. Coleman a shortnotice job on his hands. Joe then decided he would like a ride on one of Uncle Sam's boats, so he enlisted but was sent back to Lehigh in the Naval unit soon enough to assume his duties. It has been said that he could leave home with a cent, walk across New Street Bridge and return with a cent, so he probably knew the art of taking a football team on a trip and coming back with a profit, but they make 'em that way in Harrisburg.

MANAGER J. M. COLEMAN

E. BOOTH

The fighting Celt from Carbondale. We don't know much about the place but if they are all as big and steady as Eddie we pause to say, "some place." Eddie played a good game in his Sophomore year as a guard, but performed at tackle during the past season. He is consistent but not spectacular. The backfield can confidently expect a large hole in his side of the line when five yards are needed, so he is a valuable man to have around. He will be with us next year, so we can expect, with his help, to see Lafayette's line crumble just as Hindenburg's did.

L

C. N. W. TOMLINSON

"Tommy" has well earned his right to wear the 'Varsity "L". For four years he has been a faithful and energetic member of the football squad, participating in a game now and then, but never quit: making the place he held secure. This year he played a good game at right end, particularly on the defensive. "Gob," as he is familiarly known by that efficient group of young men known as Senior Miners, will be a Mining Engineer about the time he reads this, so we can expect him to show the same qualities of tenacity in that field as he did on the gridiron.

J. SPAGNA

"Joe" has played tackle for the past two seasons, his playing during the season just past showing improvement over that of 1917. He is showing improvement over that of 1917. He is reliable and whether on offensive or defensive can be counted upon to "come through" with the goods. He is strong and hard to move, so opponents made little headway against his sector of the line. He makes a good partner for Booth on the flanks and along with him will no doubt do duty in that position next season, which will be his last on the Brown and White team

H. S. SAXMAN

When Tom Keady picked "Digger" as the man to hold down left end, away back in 1917, he knew what he was doing, for the position has been well filled since then. Although light in weight, Saxman is a speedy and sure tackler. He has a habit of crawling in on the flanks while nobody notices him and has thrown many an opponent for a loss. Harry has one more year to spend at Lehigh and we predict that there will not be very many gains around him, for he will, in all certainty, uphold his end.

H. GOLDMAN

Goldman is one of the lightest men to hold down the pivot position on a Lehigh line for a great many years. However, what he lacked in weight he proved he could make up in ability, so it turned out that Goldman became a fixture at center. He is an accurate passer and a good defensive man, being able to withstand the hard bumps of opponents a good deal larger than himself and getting through on all the plays. Being a Sophomore, he has a lot of time in which to give the Brown and White his experienced and valuable services.

S. H. WEBB

Although he has been a student at the University for two years, the 1918 season was the first opportunity Sam had to display his stock of goods on the football field. As a halfback, Webb is all to the good. He is fast on his feet and made that speed count for some good gains off the ends and tackles. He was also a good defensive man. Sam is a member of the Class of 1920 so he will no doubt develop into a player of the first magnitude in his final year. We wish you luck, Sam.

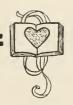

J. F. NOLAN

Nolan started the year at quarterback, but was sent to a training camp about October first. He returned to college just before the Lafayette game. As an understudy to Herrington in his first year he learned quite a few points about the game and with a little more experience can be developed into a good quarterback. He is light and fast on his feet. Still having two years at Lehigh he can be of great service to Tom Keady and the team.

D. C. PFEIFFER

Dave is a player who has figured in a run of hard luck. He was injured badly enough in his first year to keep him from the active duty he was capable of then. After making a place at right end on the 1918 team he sustained a fractured shoulder which kept hm out of the game from the third contest on. He is a conscientious player and a hard worker. We can expect him to prove one of Lehigh's best ends before his college career is over and it will be well earned, for he puts all the pep he has into every play. He still has two years more.

J. T. BADHAM

John was one of the most brilliant substitutes Keady had last fall and could play a number of positions both on the line and in the backfield. Badham is a strong, stockily built young man who is hard to spill and who, when he hits, hits hard. He is a natural born athlete who learns easily and should develop into a valuable man for any position almost from tackle to tackle, or as a back. Being a Freshman, he has three years in which to learn, so we expect great things of you, John.

G. M. SAVARIA

Savaria is perhaps the speediest man on the team. When it comes to getting up speed at short notice he cannot be beaten, for it seems he has bounced over the line of play before the play is scarcely started. He is a brilliant openfield runner and having conquered his tendency to frequent fumbling is a dangerous man in all departments of the game. He can be counted on for five yards through the line almost any time that it is needed. Having still two years to play he should develop into a brilliant backfield man and we can expect to see him mentioned as All-American material before he is through.

H. J. HEUCHEL, Associate Manager

J. G. BELL, Associate Manager

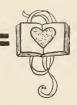

Due to the fact that Bell and Heuchel were called to the colors before they could serve their term as managers necessitates this write-up being rather short, but their work must not be overlooked for efficient service always deserves its due.

R. B. HONEYMAN, Asst. Manager

Review of Season

In spite of everything that contributed to make the life of a football man one of the unrosy kind, Lehigh had a football team during the 1918 season. There was little time available for practice and the "flu" epidemic very nearly gave the schedule a knockout wallop. However, the S. A. T. C. Commandant was a football enthusiast so he did everything he could well do to alleviate the feelings of the fans. Many varsity games were cancelled so inter-class and inter-company games were played in their place.

Speaking of the varsity itself, Tom Keady surely did have his hands full. The backfield which he finally found worked the best together was new with the exception of Wysocki. The team during the first few games was unable to play well together, but following the disastrous Rutgers defeat, pulled up with a short turn and played a better game, ending up by handing Lafayette a goose-egg on November 23, on March Field, Easton.

The team got underway against the League Island Navy Yard team whom they defeated 6-0. Following that the Marines from Philadelphia came up and measured the Brown and White for a victory, 12-6.

Review of Season

Continued

The big snowstorm occurred soon after, and said snowstorm being a 37-0 defeat by Rutgers who came out with a powerful and heavy team, which walked up and down the field at will. The game was played at New Brunswick.

Following the Rutgers game the varsity handed Muhlenberg a heavy jolt, walking off with a 54-0 victory. The Penn State game was the best of the season, although we took the short end of a 7-6 score. The game was one of the hardest fought battles. State scored on a blocked punt from the 10-yard line. Later in this game Wysocki broke his arm for the second time since donning the Lehigh moleskins.

The Lafayette game was much better from point of contest than that of the previous year. The Brown and White team walked off the field at the end of the game with a 17-0 victory. The "down the river" team played a hard game the entire period but were unable to do anything with the Lehigh defense.

The season considering all the unfortunate circumstances,, ended successfully, for after the Rutgers game the team showed a reversal of form which put defeat in the background.

1919 Schedule

Review of Baseball Season

The team broke just about even on a short season, winning four and losing three games played, those against Catholic University and Seton Hall, resulted in defeats. Three days after the Seton Hall game Penn was defeated in a pitchers' battle, Pfeiffer having the edge on his opponent. Temple University was an easy victory. The Lafayette series resulted in victory for the Maroon and White rivals, two games to one. The usual New England and Southern trips were dropped due to adverse concitions. Teams from these localities appear on this spring's schedule.

Review of Lacrosse Season

The Lacrosse team of 1918 did not have a very busy time. The long schedule which had been prepared gradually dropped in number of games until only four were left. Of these Lehigh won three and lost one, to Johns Hopkins, thereby losing the

Intercollegiate Championship which we had held for two years.

The team was composed almost entirely of new men. Alden, the only letter man graduated after the first game, leaving a team composed entirely of green men who had never before played regularly. However, they proved the equal of other Lehigh Lacrosse teams and upheld her previously gained laurels well. The playing of Jenness, 2d, brother of the Jenness of Lacrosse fame the year before, played just as good a game as his brother. Keith, Schultz, and Wey also put up a good article of the game. The team was coached by the two former Lehigh stars, Raynor, '14, and Flick, '14.

A record of the Lacrosse season follows:

April 13, Swarthmore 0, Lehigh 3.

*April 20, Penn 1, Lehigh 5. May 4, Yale 0, Lehigh 15.

*May 11, Johns Hopkins 5, Lehigh 2. *Games Away

1919 Schedule

Review of the Season

The track season was not very extensive. Several important annual events in which Lehigh has always taken part were not run during the spring.

There is a great deal of promising material which can be developed in track with a little more interest. During the spring of 1919 it is proposed to strengthen our track relations with other collegiate teams and make the sport more prominent. McGrath, Captain of the 1917 track team will be a member of the 1919 team, and with Doan, Carr, Herrington, Arthur, and Riebe should make the nucleus of a fast track aggregation.

Review of the Season

With Roy Geary once more in charge of the coaching end of basketball, the Varsity put in a season which was fairly successful, meeting some of the hardest teams in the east. Lehigh basketball teams have a habit of not striking their stride until midseason and the same can be said of this year's team. They had great success on the home floor but were only indifferent on foreign floors. The team was handicapped by the injury of Wysocki, premier college guard. Straub and Donovan played a consistent scoring game

Review of the Season

Notwithstanding the fact that Coach Billy Sheridan had very little experienced material to work with he turned out one of the best wrestling teams that has represented Lehigh on the mat in recent years. Reynolds and Bevier, Intercollegiate 125-lb. champions, are two of the hardest grapplers opponents have met during the season. The only meet lost was that to the Navy, which year after year turns out just about the best aggregation that goes on the mat. It looks as though Lehigh would have a very big chance to carry off Intercollegiate Honors this season.

Swimming Season

Ever since the completion of the spacious swimming pool in Taylor Gyunasium in 1915 a Swimming Team has been talked of, but was never realized on account of the war. At the beginning of the year, under the leadership of B. H. Riggs, '19, Instructor of Swimming, and L. B. Geis, '19, Manager, a Swimming Team was organized and a call issued for candidates. About twenty men responded and with the first practice men for all events were assured. Four days after the call for candidates the team journeyed to Annapolis where it secured a first and second place, against the midshipmen. In this meet the plunging of Rosenmiller was a feature.

Recognition of the team was secured after this meet and the support of the Athletic Association obtained. On March 1, an exhibition was given in the pool in which the

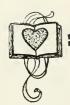

Freshman members of the team showed up to good advantage.

On March 8th, the team visited Swarthmore where it was defeated 27 to 25, although securing four firsts to its opponents' two. The work of Sourber in the fancy diving, Van Nort in 50-yard dash, and Jacobs in the 100-yd. and 200-yd. race was especially commendable.

As the swimming season was well advanced when the team was formed, but three meets could be secured. The season closed with Rutgers, March 29th. The outlook for next year is of the best as the whole team remains practically intact, and with this year's experience there is no reason why Lehigh can not turn out a winning team

Review of Season

Due to the lack of time for practice and to adverse weather conditions existing at the time, the team could find very little opportunity for practice. The fact that an early graduation of the Seniors was to take place did not permit of an extensive schedule being arranged which was more or less unsuccessful.

Book VII.

The Topic of the Hour

A professor in this little burg, walked down the avenue, And passed the studes along the way without a "how-d'ye-do." His head was bowed in weighty thought, his lips moved to and fro, And people wondered what distressed the learned professor so. And one who passed him as he walked with bent and nodding head Gave ear to his low muttered words, and this is what he said:

"A case of Scotch, two kegs of gin, two dozen extra dry, A barrel—no, I think it's two—of old Kentucky rye, Eleven gallons of Vermouth, three gross assorted wine, Port, Sherry, Medoc, Burgundy, and one good brand of Rhine, All salted in the cellar, in the bin and on the rack; Well, I don't believe the future's going to look so very black!"

I heard two solemn Seniors conversing in a car, And, knowing well how erudite our learned leaders are, I edged along beside them, in a halting, furtive way. That I might get an earful of the things that they might say. And as the car went bowling by the corner of the park, I heard the elder of the two in measured tones remark:

"I've been to see the Dutchman, and he's promised he would hold The fancy goods he's stored away and which have not been sold. I've built a bin beneath the house, and, say, by next July, My meek and lowly habitat won't be so very dry. So long, old top! I'm getting off the next house up the block. You'd better take a tip from me and go and buy your stock."

The 1920 EPITOME

1935.

Kid—Say, Pop, what was booze? You—"Why, oh, why—I don't know."

TRY THIS.

Fold your money when you put it in your pocket and you will be sure to find it doubled.

HERE'S A DIRTY ONE.

Customer—"Waiter, this coffee tastes like 'mud'."
Waiter (Excited)—"Yes sir—it was ground this morning."

Он! Он!

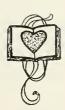

Lady—Do you guarantee these night gowns? Clerk—Yes madam—they can't be worn out.

TAKES MONEY TO CULTIVATE IT.

There's a rose that grows
On father's nose,
And it's comical to see.
Tho' it looks like rouge,
It comes from booze,
In the garden of saloons.
It's the one great rose
That father knows,
It's the work of the bartender's hand
After the first of July
We will say good-bye
To the rose on father's nose.

THE NEW FABEL OF THE VERDANT
FRESHMAN AND WHY.
BY N. N. N.

Back in the Dark Ages, previous to or before the War Bug smacked the Kaiser on the Ivory, there was once a Home Guy who went to College in the Fall, was elected Captain of the Football Team a la Frank Merriwell, and came back to his Native Village with a Dip and a Brass Badge on his Vest and Created the Original Sensation.

Since then every Small Town Yokel who ever booted the Spheroid, has had the Hunch that He

is slated to be Sensation No. 2.
After the High School had dor

After the High School had done its Worst, Our Hero decided to bequeath to some Deserving College his renowned Abilities as an Athletic and Social Favorite.

In his Home Town he was Kink, and All the Kids stood 'round and watched him blow the Nebulous Clouds of the Inguitious Weed out in the Purling Ozone.

He made every Susie and Mamie in the whole Burg believe that She whad the Queen of Broadway beaten 10 yards at the Finish.

At the Box he could pound out Arrah Wanna and Blue Bell, and said fact increased his Hat Band two whole sizes.

He could cut rings around Vernon Castle in every little Dance that came down the Pike—according to the Home Town Daily Eagle.

In fact He was the Original Devil in His Own Home Town but for being a Prime Fruit elsewhere nobody had a thing on Him.

He sure was the Big Bug and after he had gotten thru with them, all the High Schools within a Radius of Ten Whole Miles felt like a 1917 Lafay-

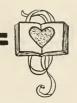

ette Team.

So one warm day in September, when the Mercury was flirting with Three Figures, Our Hero put his Socks and a pair of Pajamas in a Bundle and his Tooth Brush in his Vest Pocket and Hit the Trail for College, to demonstrate to All Comers how the College should be run.

The Home Folks knew that it would be only a Couple of Weeks before Walt Camp would have

One All-American position filled Anyhow.

The 1920 EPITOME

At the Station a Delegation of Sophs met him and escorted Him up to the College.

He took a Little Swim in the Canal first.

No other Frosh got a Reception like that and his Conceit on the Open Market jumped from 147 to 223.

In the P. M. he reported for Football but the Coach was not wise to the Crimp he had made in the Annsville Tigers and the Welcoming Arms were turned the Other Way.

Our Hero occupied only the Bench but his Green Jersey with the Orange Stripes of Tunerville

High shone up Prominent.

Äfter the Coach passed him by three times, he became much Disgusted and decided to resign Immediately, if not before. However, he got off a Punt of 30 yards, which encouraged him mightily and he decided on the Come Back next day.

That Night the Boys told him they would put him next to a lot of Nice Girls, so they all went over to Mealey's. He tried the New Lehigh Lope with an Intellectual Queen, but his feet took up most of the Floor and he wasn't the success there, that he was in the Old Town Hall.

Three G. M. in the Morning he pulled in and got the Old Buzz Saw going in Record Time. He sure

could hit her up to 60 on that.

That afternoon, Brodie had nothing on him and he was out early to give the Coach Advise on how to run the Team.

The Coach pulled the Scrimmage on them that Day, and Our Hero played with the Scrubs for

three full minutes.

After being on the Bottom in Sixteen Rushes they picked up the Pieces and dumped them outside.

But,— He picked himself up and came back for more. All of which proves that the Streak wasn't as big as we thought. In three years he made the 'Varsity and turned out to be a Crackerjack.

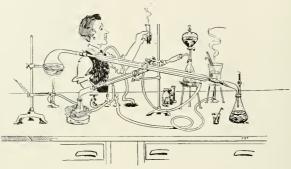

MORAL.—A Frosh is All Right provided he soaks his head in cold water every night and remembers that the Big Leagues are similar to the Bushes,

but not so much.

DID YOU EVER TRY SOAP?

As the good ship went under, old Jones gave a roar, He was now in a place he had ne'er been before. Yet with courage and hope

He grabbed on to the soap,

And with brilliant aforethought washed himself ashore.

REAL STUFF.

"Can we squeeze in this crowded car?" asked the polite but timid young man.

"Maybe, Bud," replied the Sweet Thing, "but don't you think we'd better wait 'till we get home?"

A GRAVE ONE.

"Boys," said the jester as they passed the old cemetery, "this is a grave situation."

"Any ice today, lady?"

"No, the baker just left a cake."

If an elephant can carry a trunk, how much can a polar bear?

Brother Inebriate

My dear old friend, you're like my lamp, These reasons here, to wit: Like the same you're always wicked And jolly bright when lit.

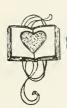

And then, methinks, you're like this glass, Here sparkling 'neath mine eye; You're very dear to me when full, So I would not see you dry.

You're also like champagne, my friend, Just brimming full of spunk, We think you're best when "Extra Dry." And know you best when drunk.

May I compare you to a gun? No harm in this is boded?; You never in your life were shot, 'Till after you were loaded.

You're not one bit like ice, old boy, You may well be elated; For 'tis no news you get more smooth The more that you are skated.

CURIOSITIES.

Pillow from the bed of the river.

Splinter, from the Board of Education.

Current, from the ocean (that's a deep one!).

Cheese, from the Milk of Human Kindness.

Bed, from the Chamber of Commerce.

SWEET!

HAZEL—Why don't you use brown sugar.?
PECAN—I prefer white sugar; it's more refined.

RIGHT!

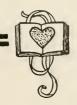

A kiss is the only agreeable twofaced action under the sun.

BOARD TO DEATH.

SHE—Why do they paint the inside of a chicken coop?

HE—To keep the chickens from picking the grain out of the wood.

The Mystery of the Blood on the Doorstep or Who dropped the steak?

DITTY.

CANTO 1.

Lives of Math fiends all remind us We can live a life of shame, And departing leave behind us, Many a zero to our name.

Canto 2.

Lives of great studes all remind us, We should strive to do our best, And departing leave behind us Note-books that will help the rest.

BETTER THAN GUESSING.

Add wife's income, Divide by your eldest son's age, Add your telephone number, Subtract your auto license number, Add electric light bill, Divide by number of kilowatts, Multiply by your father's age, Add number of gold fillings in teeth, Add your house number, Subtract wife's age (approximate), Divide by number of aunts you have, Add the number of uncles, Subtract number of daughters Multiply by number of times You have gone up in an airplane, Subtract your best golf score; Add a pinch of salt And then go out and guess. That's your Economics mark.

OVERHEARD AT ALLENTOWN STATION.

"Say, Mom, when the little red house makes by, the train's all, aint?"

THE SEVEN WONDERS OF THE VALLEY.

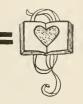

- 1 Volume I n
- 2 Volume 11 n My Metallurgical Calculations.
- 3 Volume III n
- 4 Lewine's New Vest.
- 5 Fretz's Geology Hat.
- 6. The Steak of the Commons.
- 7. Quantity Quality Theory.

ANALYTICAL MECHANICS.

Junior Examination, February, 1919.

- Calculate to six decimals the effect on the earth's surface of the friction produced by the annual migration of the Termitic ants.
- 2. How many times did the moose-deer shed his horns in the Ark, supposing him at the time of his entrance to have had none at all?
 - 3. Give Xerxes' hotel account during his invasion of Greece; tips included.
- 4. The exact age of the ass with whose jawbone Samson smote the Philistines was 12 years, 7 months and 4 days (Jewish days). Calculate his age he had been a horse.
- 5. A bullet strikes a 2-inch board with a velocity of 1000 feet per second, making a hole $\sqrt[3]{\cdot}$ inch in diameter. Determine whether the hole or the bullet got thru the board first.

SIGN THE PLEDGE.

VALVE VALUE--50 years ago and to-day

Jenkins Valves have proved themselves every day since they were first made and installed over fifty years ago—their dependability is established.

The steady "year in and year out" service of Jenkins Valves is the result of heavier construction—stronger valves of superior metal.

Jenkins Valves are made of Brass, Iron or Cast Steel—in types and sizes to meet all

requirements.

The Jenkins "Diamond Mark" on the body distinguishes genuine Jenkins Valves imita tions Look for it-demand it.

This Jenkins No. 20 Catalog Sent on Request. It is a 256-page handy catalog of useful information, descriptive of our comprehensive line
